

Agenda

FY 2017 results presentation

Successful 2017 with all targets met

Consequent execution of proven strategy leads to another satisfying year for Swisscom

Financial results in line with guidance.

Revenue CHF 11.662bn EBITDA CHF 4.295bn CAPEX CHF 2.378bn

Solid RGU momentum in Switzerland.

Postpaid +90k, TV +49k,
BB +22k and ongoing bundle
migration (+235k). Fixed voice lines
down (-320k), in line with expectations

Successful launch of new convergence flagship.

1.34 million subs.
inOne penetration continuously increasing

Driving tech-roadmap.

On track for **1 Gbps** mobile, **All IP** close to completion. **(N)G.fast** rollout and **5G** preparations started

Customer-centric innovation at heart.

Launch of mobile call filter, Swisscom TV 3.0, new WiFi box. Top 3 in HSG¹ ranking for most innovative companies in Switzerland

Efficient operations.

Targeted gross savings 2017 achieved. Indirect cost base lowered by CHF -62mn. More potentials identified

Best mobile (data) network.

Secured MVNO deal with upc. Winner of 2017 connect test

New fields of growth.

Growth in core (e.g. cloud leader position) and exploration in new and adjacent fields (e.g. FinTec)

Fastweb with strong performance.

Operationally and financially solid momentum in 2017

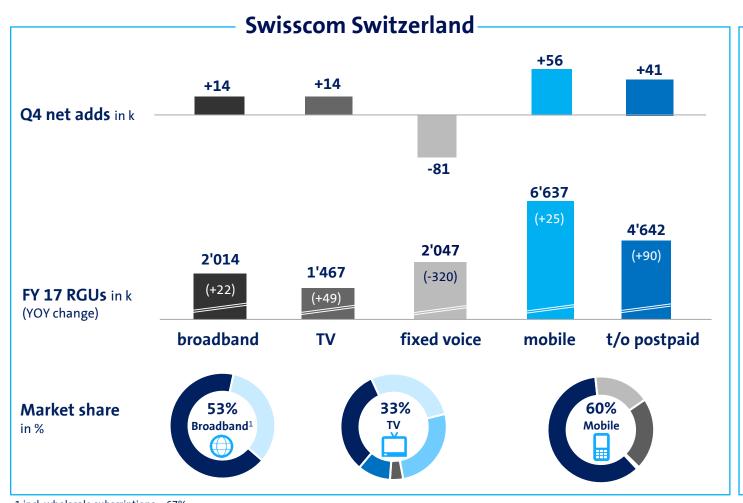

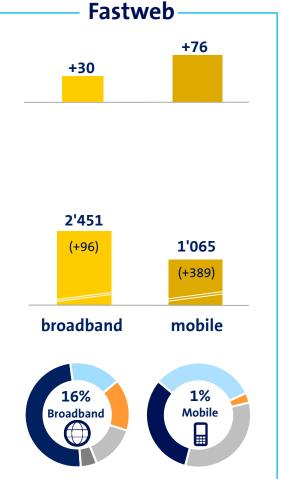

Decent market performance cementing market shares

Overall stable customer base in Switzerland and Fastweb with growing RGU momentum

Financially solid and figures 2017 in line with expectations

Underlying EBITDA of Swisscom Switzerland primarily impacted by structural changes

Net revenue

+19mn YOY

EBITDA

1 one-offs 2016: income from litigations at Fastweb (CHF -60mn, EUR-55mn), provisions for restructuring and other risks (CHF +40mn) and real estate gain (CHF -17 mn)

2 one-offs 2017: income from ligitations at Fastweb (CHF +102mn, EUR +95mn), provision for restructuring and other risks (CHF -61mn), real estate gain (CHF +4mn) and FX impacts of CHF +17mn

3 CHF/EUR = 1.11

Sector trends

Structural changes and digitalisation impacting life and businesses fundamentally

Structural changes leading to a higher focus on customer experience

Digitalisation gaining traction, driving growth and efficiency

- Increased **price/quality** sensitivity
- **Convergence** with increasing momentum
- High **CAPEX intensity**, but sector with monetization challenge
- New technologies accelerate substitution and data increase
- Services based on **e-SIM** establish
- Big data reaches productivity

Technology

Efficiency

- New digital opportunities
- **Voice and digital assistants** will become more important user interfaces
- **Personalisation** of customer experiences
- **Automation** of processes and systems

Market update

Swisscom leading in all segments in Switzerland and attacking with Fastweb in Italy

Switzerland remains focused on quality

Italy with intensifying competition

- Customer expectations unchanged: reliability and quality matters
- Mature markets drive convergence penetration up
- Promotions increase price pressure in B2B/B2C
- > Global internet companies penetrate the market

Premium market

High competition

Convergence

Price dynamics

- Convergence gains momentum while stand-alone UBB offerings no longer a key differentiator
- > B2B with promising outlook: VAS and cloud are key features for future customer needs
- > Iliad's expected market entry increased pressure on prices

Unchanged strategic focus

Best-in-class by delivering superior customer experience, efficiency and focused growth

Swisscom at heart of the digital transformation

(4) Develop the Italian business

Regain UBB momentum, scale mobile, increase B2B share of wallet

(3) Adjacent and new business opportunities

Defined focus areas for future growth

(1) Best Customer Experience

Trough coverage and capacity push and outstanding product and service offerings

(2) High operational efficiency

Lean operations through simplification, agility, online-shift and cloud transformation

(1) Best customer experience

It's all about exciting our customers by delivering the best always and everywhere

World-in-classinfrastructure

Innovative products exciting and surprising customers Convenient, omni-channel services solving problems in minutes

- Push best coverage, bandwidth and network reliability to maintain technology leadership
- Ensure **5G readiness**
- Wholesale offerings fit for growth
- Cloud for B2B/B2C

- Innovative and personalized offerings in a converged world
- **Smart ICT for SME** market
- Enable digital enterprise transformation in vertical

- **Service champion** for price premium
- Further drive transition to online, chatbots and artificial intelligence
- **Predictive maintenance to** proactively solve issues

(2) High operational efficiency

Focus on digital transformation opportunities and value-based rollout

Efficient operations

Digital transformation

Smart investing

- Process optimisation driven by org. restructuring and All-IP
- > Increase share of outsourcing
- Portfolio streamlining and standardisation
- > Workforce improvements
- > **Agile** development (DevOps)

- Virtualisation of network functionalities
- Online-shift for volume based interactions
- > Increase **process automation**
- Use of Artificial Intelligence (AI) and Analytics

- > Best allocation of resources by efficient use of technologies
- Optimise network build by partner consolidation
- Continue efforts for CAPEX efficiency
- Next generation of fluid delivery models

(3) New growth opportunities

Push innovative consumer solutions and selectively approach outside core

Growth in core business

Push in adjacent markets

Selectively develop new fields of growth in internet-based domains

- > Increase share of wallet with smart home and mobile products
- > Approach market with multibrands
- > Wholesale push
- > Identify X-Play opportunities (e.g. Consumer IoT)

- Push horizontal ICT solutions through e.g. Amazon Web Services/Azure Hybrid Cloud partnership
- New security services (e.g. threat detection and response)
- Evaluate **inorganic** activities

- Allow selective growth in internet-based services
- Continue Fintech momentum
- New Focus fields (e.g. data insights services, eCommerce)
- Utilize open innovation (e.g. start-up incubation)

Prepare for future growth through global partnerships in adjacent markets and focused approach in internet-based business models

(4) Develop Fastweb

The leading alternative Telco provider in Italy

Leading alternative BB and UBB provider

Strong boost of mobile volume and customer focus

Leadership in B2B market

New opportunities in wholesale

- 360° infrastructure capabilities
- Accelerate UBB adoption by maximising **NGN** coverage
- Strategy to become convergent player

- Scale up mobile and push convergence
- Distinctive approach to build long-lasting customer relations
- #1 attacker in B2B
- Fully exploit **Telco/ICT** portfolio
- Win new customers and increase share of wallet
- Leverage deep fibre capabilities
- Increase high margin revenues

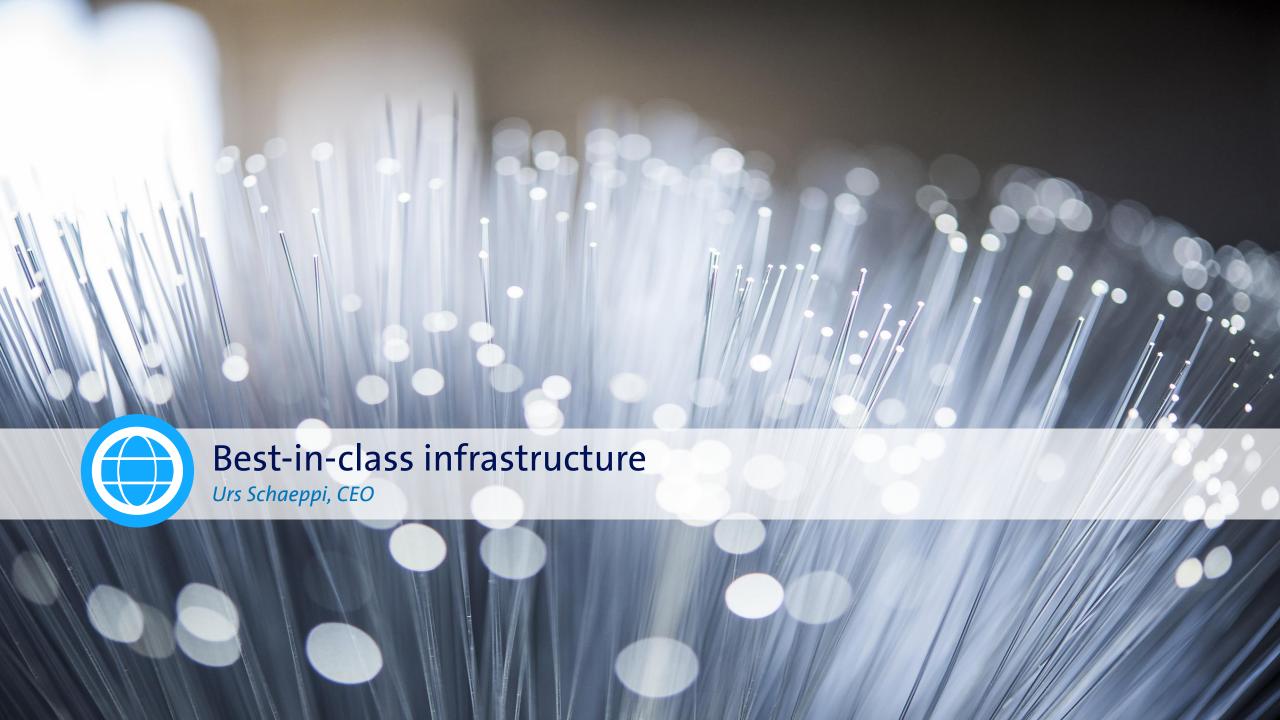

2017 in a nutshell

Technology and innovation leadership in all areas

CHIP

Testsieger

1st in Switzerland with gigabit speed (4G+) and expected pop covering of 30% by YE18

Increasing UBB footprint.

75% with >50 Mbps 55% with >80 Mbps (+8 p.p. in 2017) 27% with >200 Mbps

Strong cloud proposition and attractive portfolio.

Cloud Study from ISG²: "In 2017, there's no way of avoiding Swisscom"

Setting the benchmark.

Swisscom wins the connect test with a new DACH1 record (973 out of 1000 points)

Positive roll-out impact.

Up to 1.1 pp uplift in additions per month as well as up to 4% ARPU uplift

Building first IoT networks and supporting all standards

Swisscom extends strategic partnership with Ericsson to build 4G+ and 5G

All IP migration on track: 90% completed. Savings kicking-in from 2018 onwards

Operational Efficiency.

Optimised network rollout leading to sustainable cost reductions

1 Germany, Austria and Switzerland, 2 research institute

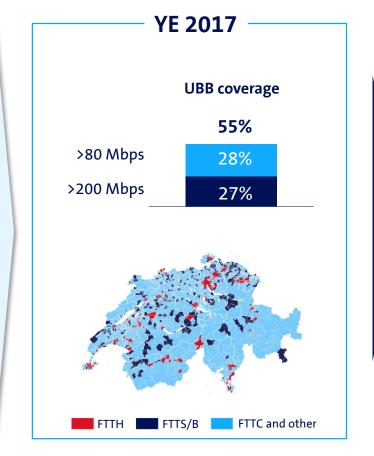

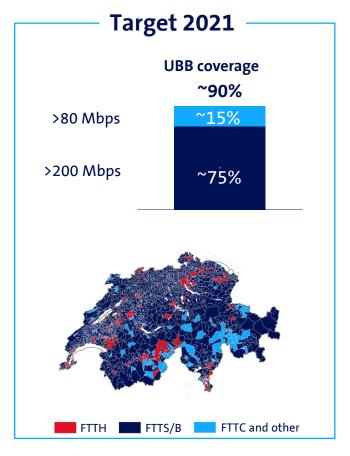

Increasing UBB footprint in Switzerland

4.5G/5G

Investment-driven technology strategy to maintain leadership in Switzerland

- - > Broad fibre rollout leveraging FTTS/G.fast technology
 - up to 500 Mbps on copper
 - 2x faster and 3x cheaper rollout than FTTH
 - > Strong emphasis on cooperation and partnership with municipalities, construction partners and local fibre players
 - > Early investment in next generation fibre technology for bandwidths above 1 Gbps (ngPON)

Building the wireless network of the future

Achieve Gigabit-speeds for large parts in Switzerland by extending 4G capacity and ...

Invest in capacity, performance and functionality to stay on top of European network quality

Stay ahead as technology leader and enable growth in new business areas

Gigabit-4G and IoT

> Highest Gigabit-4G speeds all over Switzerland

4.5G/5G

- 1Cbps
- Efficient use of spectrum assets (with only 45% share)
- 255MHz Swisscom

 Seize the opportunity of cellular IoT technologies, complementing LoRa

5G

Making the network ready for 5G by combining radio, fiber, central office and telco cloud assets

> Field trials with new use cases - with real customers

Secure new spectrum and ease current tight radiation hurdles

New spectrum allocation 2018

For 5G additional spectrum is going to be available for use in Switzerland in January 2019

Addition spectrum for 5G

5G spectrum auction **expected in H2 2018** - available for use already in January 2019

Frequency bands involved are:

> 700 MHz 2x30 MHZ FDD + 15 MHz SDL

> 1400 MHz 91 MHz SDL

> 3.5-3.8 GHz 300 MHz TDD

Consultation regarding allocation of new sources launched

Due to increasing data volumes transmission capacity needs to be increased

Virtualisation progress

Transformation to virtualized network functions starts to become real

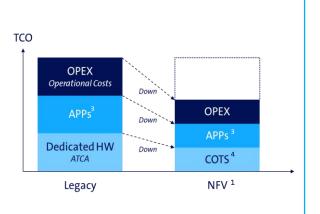

Virtualization benefits start to materialize

- > First two network functions running live on the cloud
 - > Business Network Services: 3rd party NFV¹ for SMEs
 - > Secure enablement server: onboarding within short-time

- > **Ambition**: reduce total cost (TCO) of ownership for network functions
 - > Reduce T2M
 - > Simplify architecture
 - > Automated processes

Telco cloud ambitions

> Migrate critical workloads to the Telco cloud in 2018, e.g. mobile core (EPC²)

Enterprise cloud ambitions

> 21% of servers migrated to **Enterprise cloud 2.0** by YE 2018

1 Virtual Network Function, 2 Evolved packet core, 3 Application, 4 Commercial off-the-shelf

Virtualisation/IP

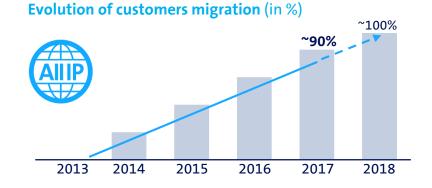

CAPEX

Wholesale

All IP migration update

Continue the transformation towards All IP in fixed, extend to wireless

Wireline: drive All IP transformation forward and realise savings from 2018 onwards

All IP migration proceeding as planned

- > Two million customers on All IP
- ~90% of total migration completed, Residential with highest contribution
- > Area-driven transition to full All IP from 2018 onwards

All IP savings kicking-in from 2018 onwards

- > Recurring cash savings of CHF ~100mn until 2020
- Cost-effective savings achieved through process optimization, product development and TDM phase-out

Wireless: prepare for legacy sunset to harvest power and spectrum savings

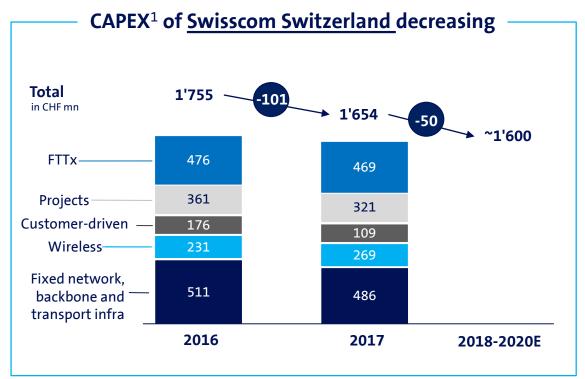

- Declining customer base with legacy technologies allow 2G phase-out end of 2020
- > Free-up spectrum and power to improve 4G network
- Customer benefits: future-proof devices and improved network perception

Evolution of our CAPEX envelope

Ultra-broadband push drives fibre investments up, but overall CAPEX declining ...

1 excluding fees for new spectrum licences

Drivers of Swiss capital expenses*

- > Fibre investments steady with CHF ~0.5bn until 2020/21
- Projects with most optimization potential thanks to agility (DevOps) and less need
- > Lower customer-driven CAPEX due to B2B demand and TV boxes (being newly sold)
- Wireless: Digest increased 4.5G and future 5G investments without total CAPEX increase
- Lower CAPEX for fixed network, backbone and transport infrastructure thanks to improved broadband rollout and optimised network spends

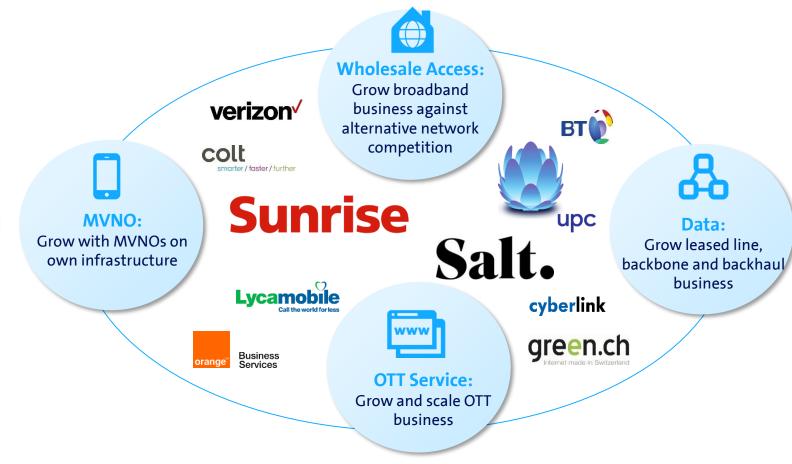

(4)

Broad wholesale portfolio enabling attractive infrastructure access

Swisscom offers highly competitive access services to all operators in Switzerland

- > Wholesale market leader in Switzerland
- Growing wholesale revenues, keeping value creation on Swisscom network
- Highly competitive, cutting edge wholesale portfolio
- Solid level of competition indicates that no further regulation is necessary

Regulatory topics in the spotlight

Manage uncertainties to ensure ongoing favourable environment for the Swiss market

Revision not effective before 2020

Telecom Acts revision

- Technology neutral access regulation is an ongoing discussion - addressing cable and power companies as well
- Not effective before 2020

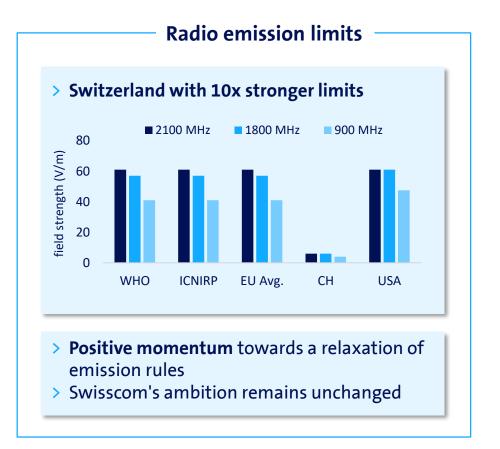

Roaming ahead of regulation

- > Swisscom follows "Roam like home" approach since 2012
- Swisscom's mobile tariffs practically abolish roaming charges for its customers in the EU area

Consumer Protection

- Swisscom acts proactively on customer concerns
- And invests into the protection of minors

<u>Achievements</u>

TV

2017 results in a nutshell

Strong market position successfully maintained due to consequent execution of proven strategy

Commercial highlights

Residential

- > Successful launch of inOne FM penetration steadily increasing
- > **Bundles** with ongoing growth (+228k YOY)
- > Wireless push and new mobile products (Wingo Fair Flat, SimplyMobile) accelerate pre2postpaid migration
- > Next TV generation EOS 3.0 launched
- > **UBB** performance increased by delivering **value** and superior customer experience

SME

- > New SME portfolio launched: Smart ICT
- > Business Network Solutions enhanced: virtual trunk and UCC offering

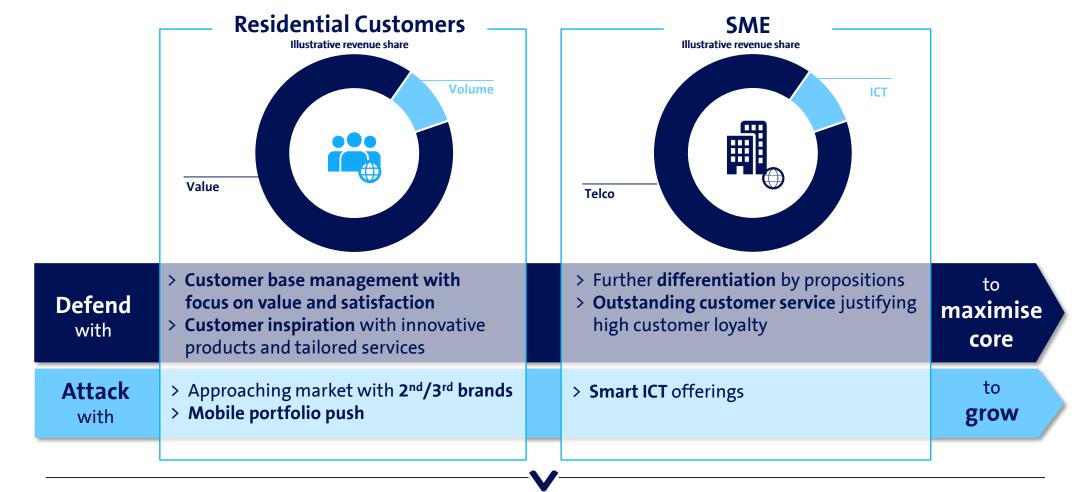

| | | Financial p | erformance FY 2016 | FY 2017 |
|---------|------------------------------------|-------------|--|--|
| | Service revenue o/w bundle revenue | | CHF 5.52 bn CHF 2.50 bn | CHF 5.36 bn CHF 2.78 bn |

| | EBITDA | | CHF 3.65 bn | CHF 3.51 bn |

Maximise core in a highly penetrated market as strategic priority

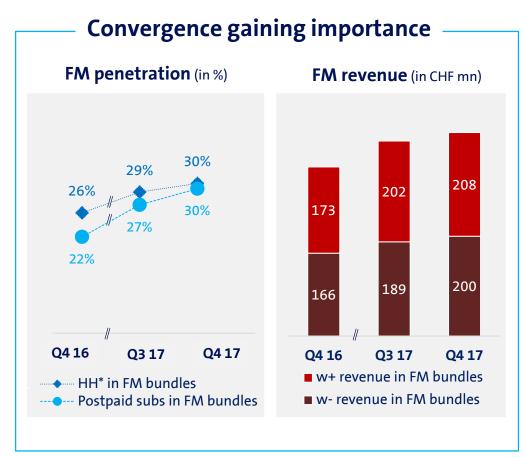

Defend our value position for Residential Customers / SME and grow in adjacent businesses

Convergence increasingly knocking at Swiss households' doors

inOne our new value proposition to fence customers and defend our leading position

The best for our customers

- > Further price differentiation
- > Fully customisable
- > Value add
- > FM bundles offering discounts
- > Extendable up to 5 mobile subs per HH

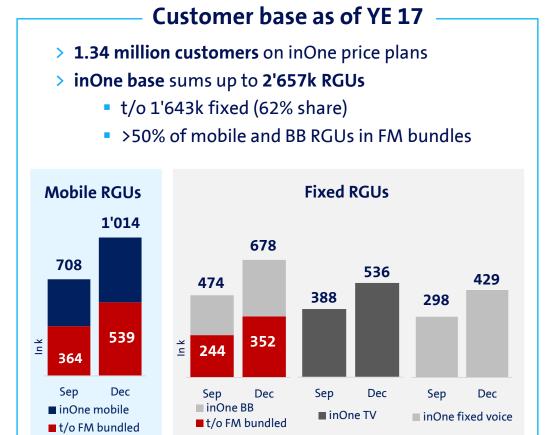

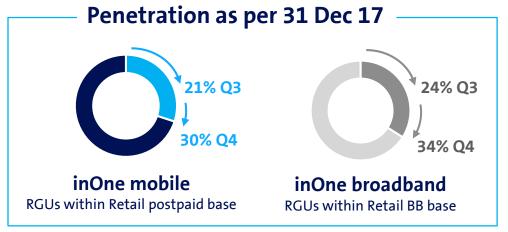

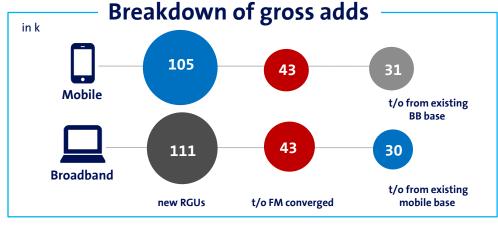

Positive inOne performance – in line with own expectations

TV

1.3mn customers with 2'658 RGUs thanks to attractive and fully-converged offerings

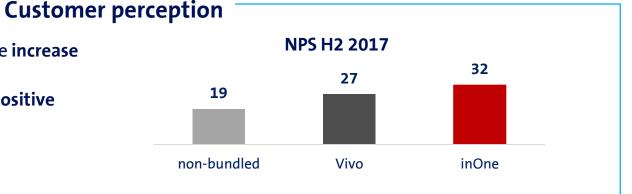

inOne with positive impact on customer loyalty but at some cost

Convergence advantage and freedom have a positive perception effect

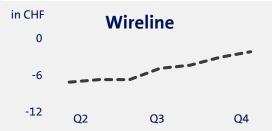

- Simplicity and better price/performance increase customer loyalty and reduce churn
- Savings and freedom of choice have a **positive** effect on net promotor score: NPS in H2 2017 substantially improved

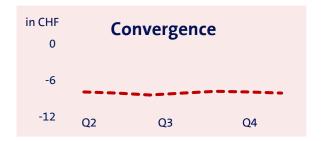

in CHF Wireless 12 6 02 03 04

Mobile (non-bundled) changeover with light ARPU uplifts

Quarterly ARPU impacts

inOne broadband RGUs with rightgrading effects weighing on ARPU, trend in Q4 improving

> Converged subscriptions with slight ARPU dilution, in line with expectations

31

Leading TV platform in Switzerland with 33% market share

Continuous development of our TV proposition leads to strong net adds

TV

Swisscom TV Entertainment OS3

- > Ambition to deliver the **best TV experience**
- > Exceptional TV proposition **key to differentiate** and grow further TV market share
- > TV important **driver** for leveraging fixed bundles
- > 3rd generation of Swisscom TV launched in Q4 2017 with new features: easy search, personal universe and smart remote

Content strategy

- > Ambition to act as TV aggregator
 - > TV experience equally important than content
- > Best TV content in Switzerland with extensive film library
- > Access to live sport offerings
 - > Swiss football league
 - > Top European football
 - > NHL / champions hockey league
 - > Sky Sports app

Bouquet of innovative features key

Up to 2400h recordings

channels

7-day replay

4K UHD

Digital radio

Top content

Multiroom

Outstanding stickiness and customer loyalty

Foster mobile and smart home products to increase customer experience and sustainability

Smart Home Products

- > New WiFi Router
 - > WLAN-Box with IBP/S
 - > Launch new repeater
- > Smart Home
 - > Expansion of proposition
- > MyCloud
 - > Launch new mobile clients
 - > Launch MyCloud Pro
- > Security
 - > Internet Guard
 - > Callfilter

Mobile Products

- > Multi Device
 - > Data and voice
 - > Messaging and accessory
 - > National and roaming and extension to IoT

- > eSIM / RSP *
 - > Standardization
 - > Better customer experience
 - > Driver for multi device

- > Advanced Communication (E2018)
 - > Enriched calling/messaging
 - > Multi number
 - > Convergent communication

Increase share of wallet thanks to innovative products

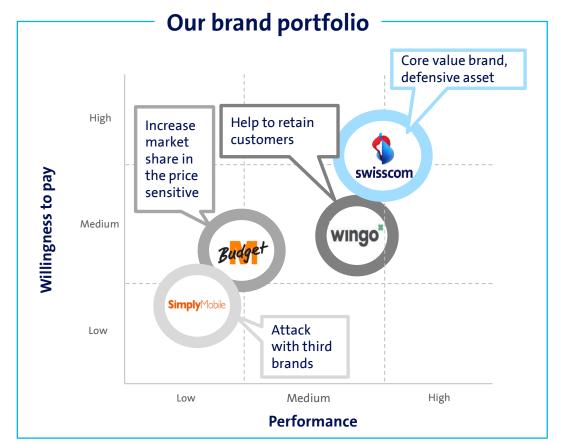

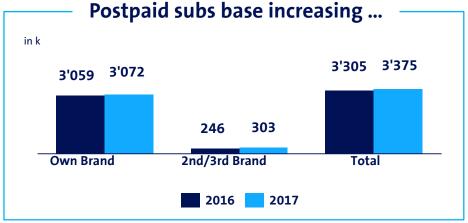

Achievements **Ambitions** Convergence

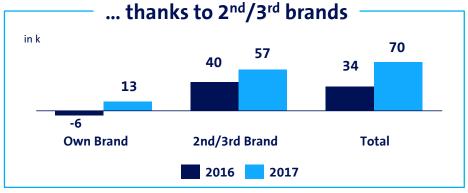

Added Services

Leverage subs base with differentiation in products and services

Multi-brands addressing best value for each customer need

Smart ICT - Outsourcing for SME Customers

All-in-one managed service for IT and communication

Smart ICT offering

Launched in Dec 2017

Business Internet Services

- High-Performance Broadband Internet Access
- Fail-safe Guarantee

Business Communication Services

- > Virtual PBX (Hosted)
- On-Premise PBX (Trunk)
- Unified Comm. & Collaboration

Business Network Solutions

- Flexible Virtual Networks
- Managed LAN
- **Managed Security**

Business IT Services

- > IT Service Management
- **User Cloud Packages**
- **Company Cloud Services**
- > User Hardware Packages

Unique value proposition

- Comprehensive managed ICT solution
 - > Internet access with fail-safe guarantee
 - > IP-telephony with collaboration functions
 - > Entire IT setup run in the cloud, also covering hybrid operation scenarios and required hardware devices
 - > Fully managed with personal support
- Highly modular and scalable design allowing easy and flexible adaption to customer-specific needs
- Everything over one network ensures highly secure, performant and available operations
- Calculable monthly costs through fixed prices

Achievements

Ambitions

Convergence

Develop customer value thanks to unique multi-channel approach

Swisscom's million interactions establish best-in-class customer experiences

Mix of customer touchpoints

>13mn inbound calls

>5m shop visitors in 119 own shops plus >500 chain channel & specialised trade POS

>50mn customer contacts online

>50mn outbound marketing contacts

>0.4mn onsite visits

Up-/cross-**Promotions** selling and SAC/SRC

Network

rollout

Value added services

Bundling **EOS 3.0**

Value potential

- > Push inOne penetration
- Increase customer base ARPU and BB penetration with ultrabroadband rollout
- Grow share of wallet with added services
- Cement customer loyalty and lifecycle value
- Develop online customer experience to benefit from digital chances

Future-proof and efficient interactions

Increase share of cost efficient self-service channels and develop sales strategy to deal with upcoming challenges in retail landscape mid-to-long-term

2017 results in a nutshell

B2B market offering growth opportunities

Commercial highlights

Telco

Telco business

- > Mobile
 - > Win-backs
 - > Innovations in portfolio keep ARPU up
 - > Growth with IoT
- > Fixed
 - > Major networking deals won
 - > Growth with low-end SDN1

Solutions business

- > Cloud: Launch of Enterprise Service Cloud, Hybrid cloud with AWS and Microsoft Azure
- > **Security**: Responding to growing concerns of network attacks with innovative services
- > **Banking**: Digital transformation and incorporation Swisscom Blockchain AG

Achievements Ambitions Telco Cloud Security Banking Digital Solutions

Foster Solutions business to realise new sources of growth

Revenues from Telco and Solutions with diverse contribution trends

Wireless connectivity business

Best solutions for business mobiles

W- portfolio & market dynamics

Telco

Differentiation by continuous portfolio innovation

- > Modular design of wireless portfolio
- > Enhancing features: Mobility4Work or Mobile analytics and reporting
- > Multi-device approach
- > Advanced calling

CHF 482mm

Market share conservation at the expense of lower ARPU

Internet of Things

IoT with connectivity focus

- > Revenues growing
- Exploit potential with industrial partners and national public transport companies
- Follow Swiss multinationals with global offerings
- > Modular offering for resellers and integrators to further gain load on networks

Smart City – way to sustainability

- > Swisscom well positioned
- Improving city life and sustainability

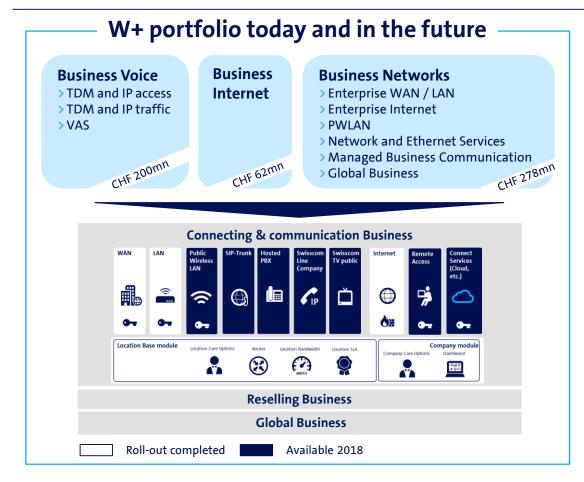

Achievements Ambitions Telco Cloud Security Banking Digital Solutions

Wireline connectivity business

Excellent experience including connectivity and communication services, today and tomorrow

Drivers of network services

- > IP impacting MPLS ¹
 - > Migration speed to IP increasing
 - > IP products rolled out and customer feedbacks positive
 - Centralisation and cloud need more bandwidth and highly reliable SLAs²
 - > Thus, phase-out of TDM based services
- > **SDN** based services ³
 - > Enhance MPLS services capabilities
 - > High flexibility, reactiveness & self-care
 - > Low-end portfolio partially launched
 - > High-end piloted in 2018
- > Converged services
 - Modularity enables fully integrated cloud and security offerings

Ambitions

Telco

Cloud

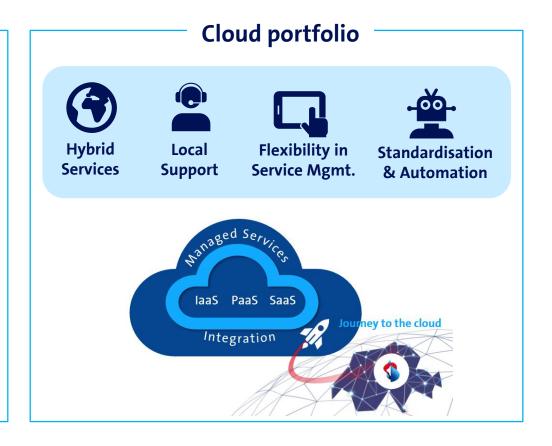

Cloud services contributing growth

Swisscom's comprehensive cloud offering supported by excellent services

Hybrid cloud strategy

- > Enterprise service cloud Swisscom with unique and comprehensive portfolio
 - > Platform offering: Enterprise-grade XaaS platform in combination with global market leaders provides best hybrid cloud package
 - > Services offering: State of the art transformation and integration services with 'journey to the cloud' and effective integration services into customer's IT environment
- > Growing business with sound margins

Ambitions

Cloud

Threat detection & response

Security services gaining traction

Swisscom protects Swiss B2B IT environments from cyber attacks

Telco

- > Cyber attacks of major concern for companies
 - > Number and form of attacks increasing
 - > #2 concern of Swiss companies 1
 - > Ongoing shift to managed services
- Swisscom with comprehensive portfolio covering all aspects of secure IT operations
 - > (Managed) security (network) services
 - > Secure digital processes (e.g. Mobile-ID)
- > Growing momentum
 - New offering 'Threat detection & response' with strong pipeline
 - > Further growth envisaged with encryption & anonymization services

Swisscom with largest IT Security service offering and optimised threat intelligence

Ambitions

New opportunities on the strength of Banking and FinTec

Swisscom provides digital solutions and outsourcing to the banking industry

Banking

- Successful and contributing to growth of Solutions business for many years
- > Further strengthening its position in 2017
 - > New record of contract prolongations 12/2017
 - > **New businesses** e.g. payment transactions for cantonal banks contributing to growth
- > **Consolidation** in 2018 causes slightly lower revenues
- > **Positive outlook** envisaged with further opportunities in new segments and offerings

Shape blockchain activities

- Swisscom steps up blockchain activities and establishes new subsidiary
- > Push blockchain **applications** in and for Switzerland
- Decentralised, networked collaboration in the fields of healthcare, insurance and banking

(C)

Growth chances with digital solutions

Digitalisation as key driver of new business opportunities

New business models

Swisscom Mobility Insights provides anonymised data and allows for better targeted marketing campaigns

Improved customer experiences

Artificial Intelligence triages incoming e-mails from customers resulting in better response times and higher customer satisfaction

Digitised business processes

Digital Interaction in health makes access to health services more efficient and improves customer experience

New working opportunities

New digital tools make collaboration easier, new workspaces provide a working environment independent of time and space

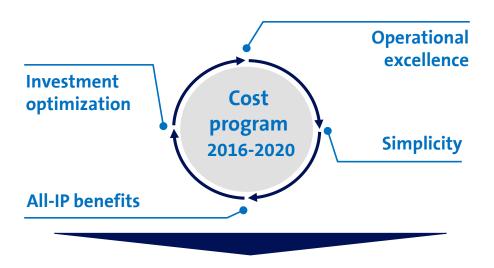

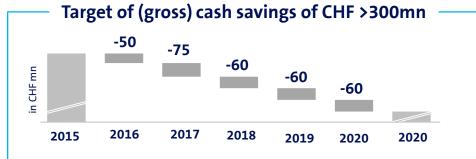

Cost program and 2017 results in a nutshell

Cost focus a key priority to maintain Swiss margins stable

Deliverables 2017

Many efficiency and simplicity initiatives initialised and running

All IP transformation well progressing and increasingly contributing to reduce costs

FTE base of Swisscom Switzerland further declining: -719¹ (-4.5%) since YE 2016

Targeted gross savings of CHF 75mn achieved. Indirect cost down by CHF -62mn YoY

Further cornerstone achieved to accomplish targeted cost savings of program 2016-2020

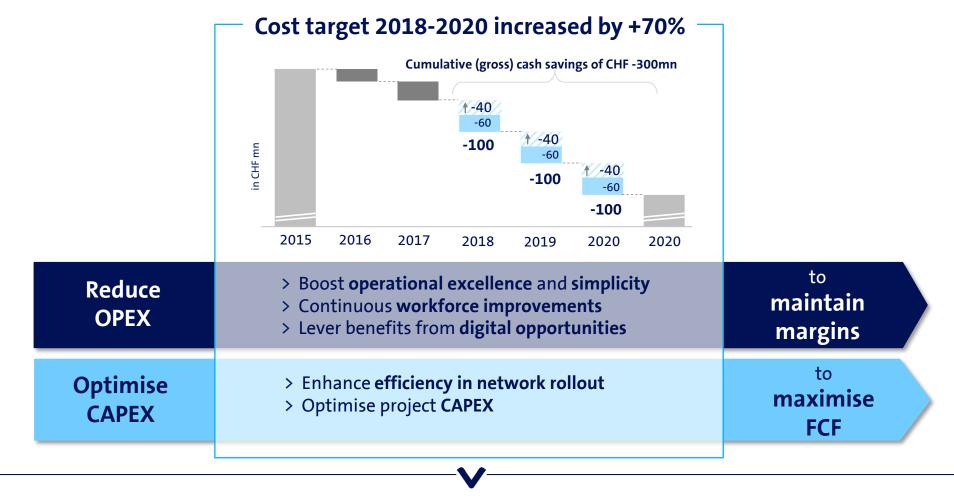

¹ FTE situation as per 31.12.2017 for Switzerland (17'688 FTEs, -684 FTEs YoY), Swisscom Switzerland (15'157 FTEs, -719 FTEs YoY)

Push strategic cost reductions to the next level

Accelerate cost reductions to sustain leadership and capture the maximum benefits

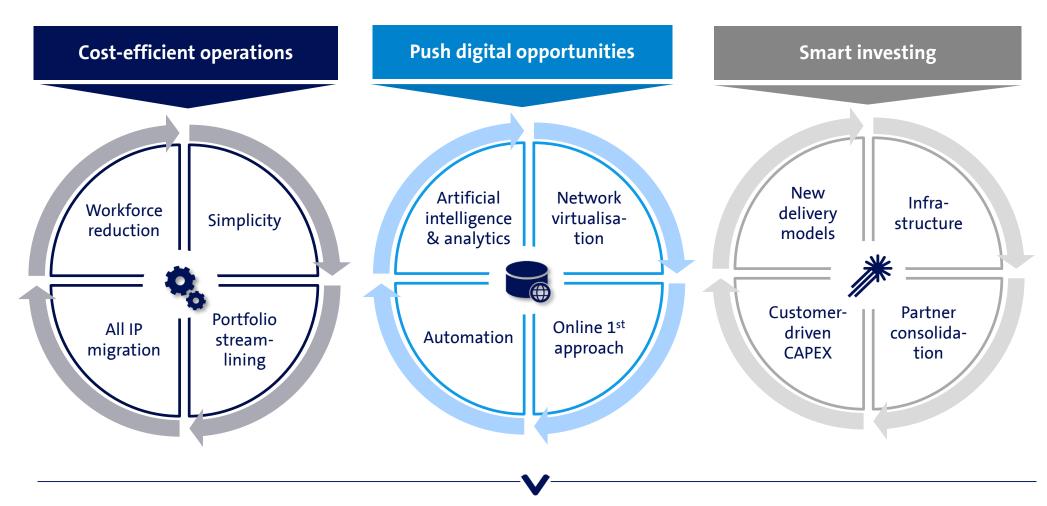

Different pillars contributing to future cost reduction accelerations

Enhance simplification, use digital opportunities and optimise network rollout and projects

Develop Fastweb Alberto Calcagno

2017 in a nutshell

Leading alternative wireline player positioning strengthened

- **Extended NGN infrastructure** to 8mn HHs, by far the **second largest UBB network** in the country
- **Increased UBB adoption** with over 1.0mn lines and 43% penetration on wireline customer base
- Successfully exploited 4G services doubling mobile customers and awarded 5G trials in line with strategy to become a convergent player
- Launched the 'Italian Uncarrier' strategy to further differentiate in mobile and wireline
- Over 1.0 p.p. market share increase in Corporate market vs. 2016 and 31% order book growth
- Further consolidating as **#2 operator** in a highly fragmented **wholesale** market

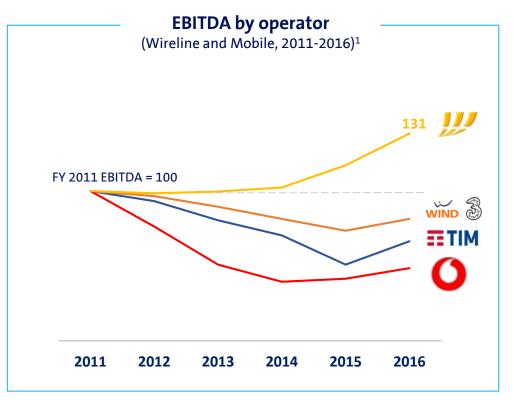

Steady EBITDA growth ...

Another positive year with customers and margins growing for the 18th consecutive quarter

| FY 2017 financial and operational KPIs — | | | | | |
|--|---------------|---------|------------|--|--|
| | | FY 2017 | Change YoY | | |
| <u> 1111</u> | Revenues in € | 1.94bn | +8% | | |
| | EBITDA in €* | 0.76bn | +15% | | |
| | FCF in € ** | 133mn | +36% | | |
| | BB subs | 2.5mn | +4% | | |
| | Mobile subs | 1.1mn | +58% | | |

^{*} including income from litigations of EUR 95mn

¹ Source: Internal elaboration of public data; Vodafone FY ending 31 March of the following year

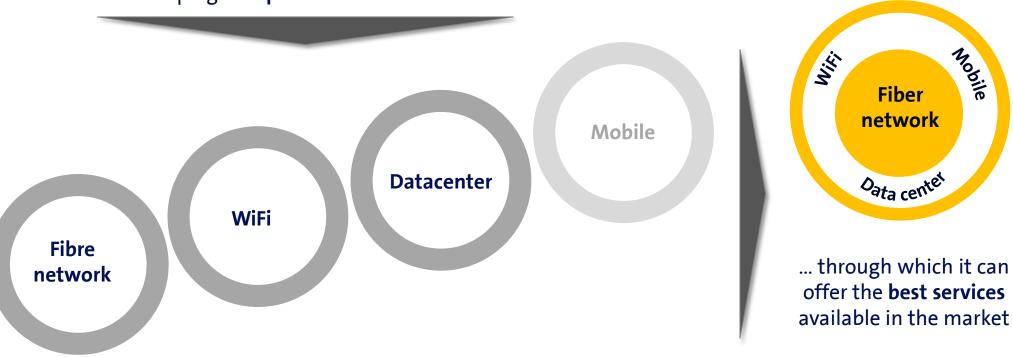

^{**} excluding extraordinary cash outs for financial investments (acquisition of Tiscali branch and participation in FlashFiber)

... thanks to a unique positioning

Leveraging the best 360° infrastructure available in Italy

Fastweb has built a clear competitive advantage by developing **four points of excellence** ...

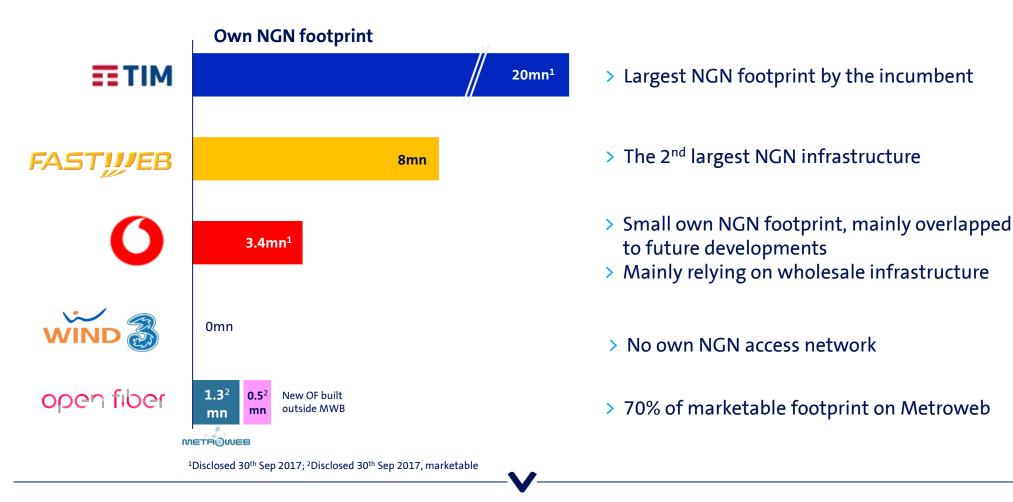

By far the largest alternative NGN footprint ...

Fastweb leadership on NGN infrastructure confirmed in 2017

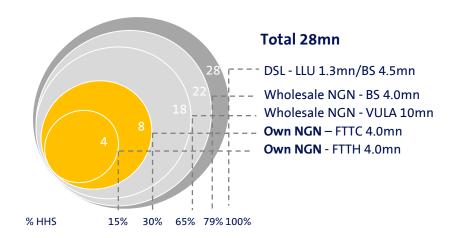

•

Focus in 2018 will be to upgrade existing footprint in order to further accelerate UBB adoption

Overall footprint (mn HHs, exp'ed as of Dec 18)

FTTH footprint (exp'ed Dec 18)

1 Gbps

2mn HHs own built in top seven cities

(Milan, Rome, Bari, Bologna, Naples, Genoa, Turin)

>2mn HHs in 29 cities trough JV with TIM

(3.0mn coverage at roll out completion in 2019)

FTTC footprint (exp'ed Dec 18)

200 Mbps

4mn HHs own built in high density 100 cities

> Acceleration of UBB coverage by the end of 2018

- ~80% overall coverage
- o/w >30% own footprint

FTTH roll-out will continue ...

... coupled to Wholesale NGN to reach largest UBB potential

Optimised NGN approach

 Enabling also accelerated customer migration to UBB (270k approx. 15% of consumer customer base)

Leverage existing asset base to become a convergent player based on 5G

Fastweb has all ingredients for 5G hybrid 'fixed/mobile' infrastructure

> Fibre to provide backhauling

45'000 km in approx. 1'000 municipalities

> FTTS cabinets to host and power small cells equipment

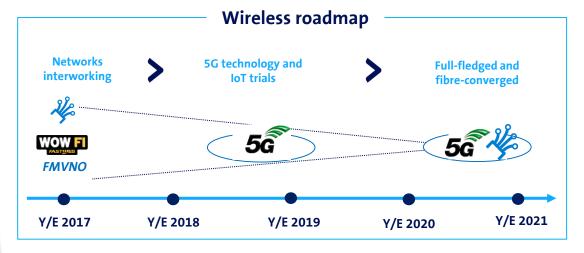

Over 22'000 street cabinets today

> Spectrum

40 MHz @3.5 GHz (through deal signed last December with Tiscali)

100 MHz @3.7-3.8 GHz over Bari/Matera (5G MISE Trial¹)

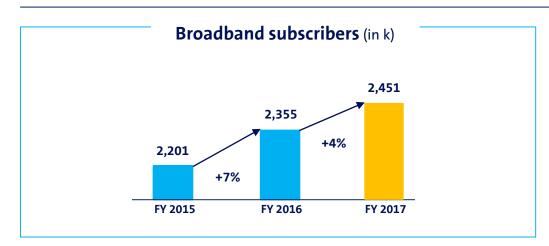

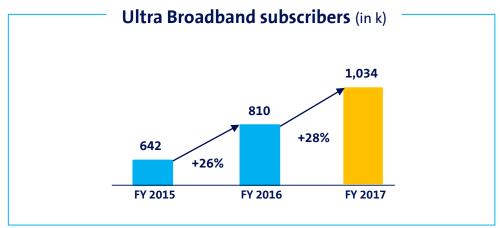

5G is an opportunity for Fastweb to position as a convergent player

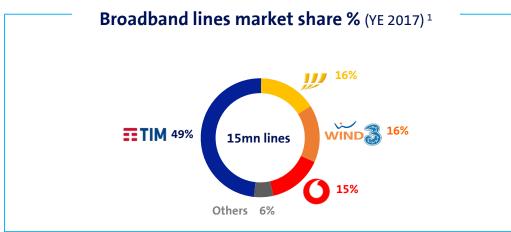

Consumer - the leading alternative operator in BB and UBB ...

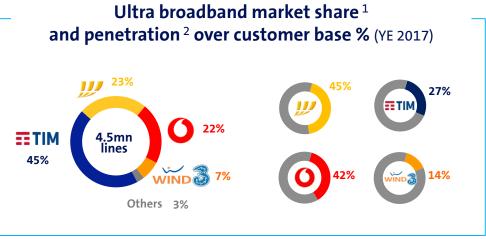

(3)

Steady growth of UBB customer base leading to the highest UBB penetration in the market

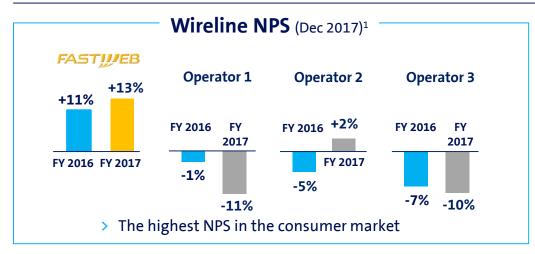

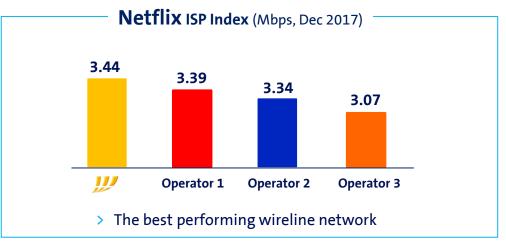

The highest Ultra Broadband penetration over wireline CB

New partnership with ENI to be launched in 2018

No. of TV customers (YE 2017) 500,000 customers 20% of Fastweb CB

New partnership with Eni Gas e Luce

enigaseluce + FASTIVEB **Concept**: discounted offer (fixed, mobile, gas, power) for prospects and customer base

Market: consumer segment (families and small businesses)

swisscom

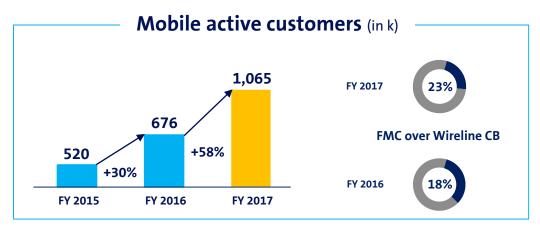

57

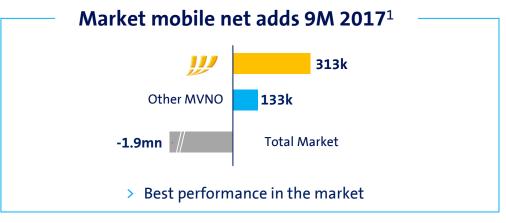

New ENI partnership to replicate the success of Sky/Fastweb collaboration

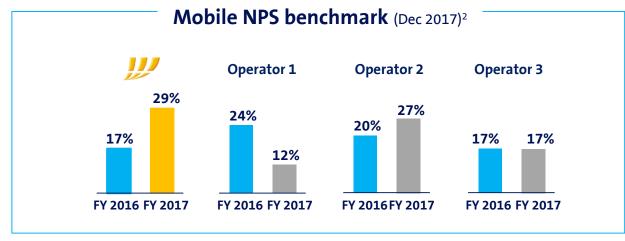

Mobile - Strong boost of volumes coupled to top NPS ...

4G services and transparency of commercial offer drive strong performance

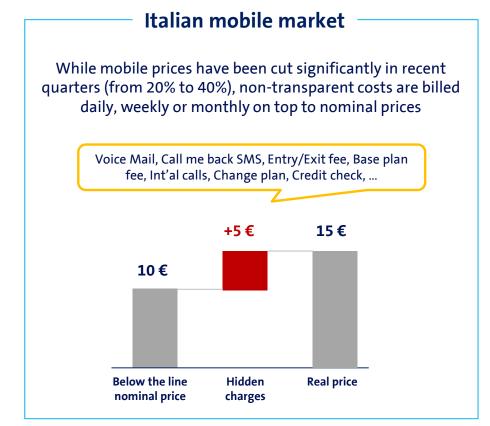

On track to further scale up FMC customer base

... also thanks to a distinctive commercial approach

Building long-lasting customer relations based on clear value drivers

Strategy

Infrastructure

Consumer

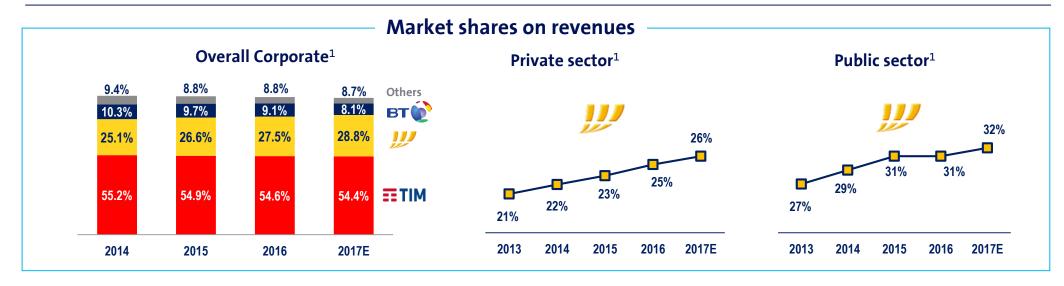

Corporate

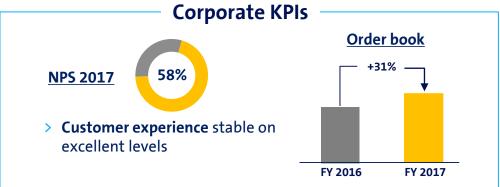

Consolidate B2B leadership

Focus on service quality and customer satisfaction driving further growth

- Exploit all main framework agreements currently held by Fastweb²
- > Increase **commercial push** to win new top customers
- Increase share of wallet, leveraging on cloud and ICT VAS

Consolidate penetration in PA and increase overall share of wallet on customer base

Steadily increasing market shares

Consumer

- Scale up mobile and push convergence
- Further accelerate UBB adoption to increase customer stickiness
- Leverage partnerships

Corporate

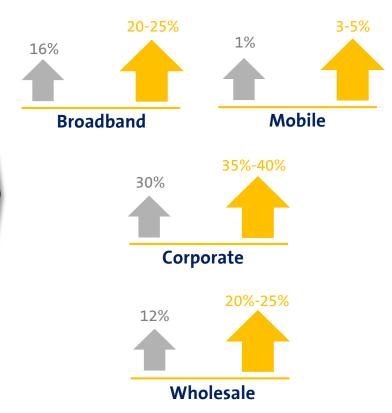

Growth by increasing share of wallet and increasing market share on core connectivity services

Wholesale

Strong opportunity to provide BTS fiber connections

5 years market share ambitions

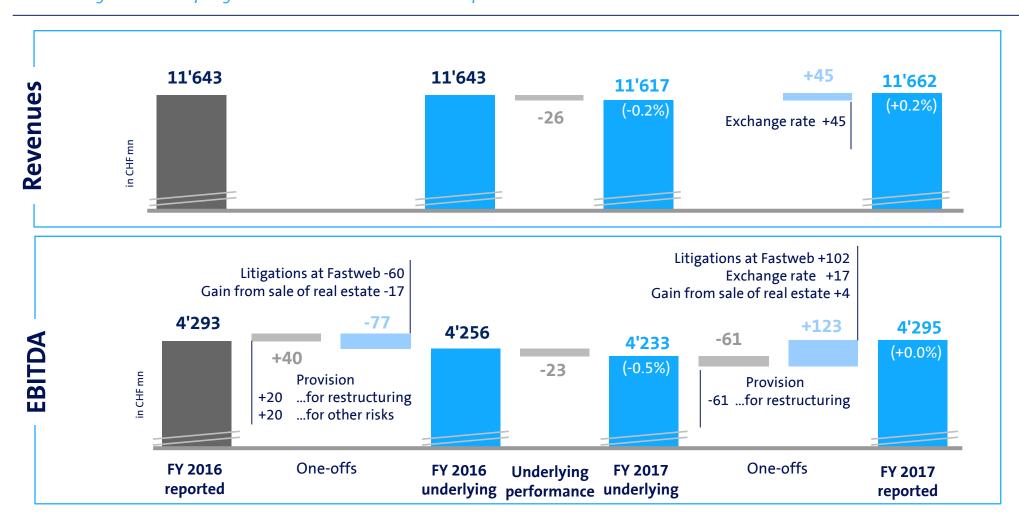

Reconciliation of key financials

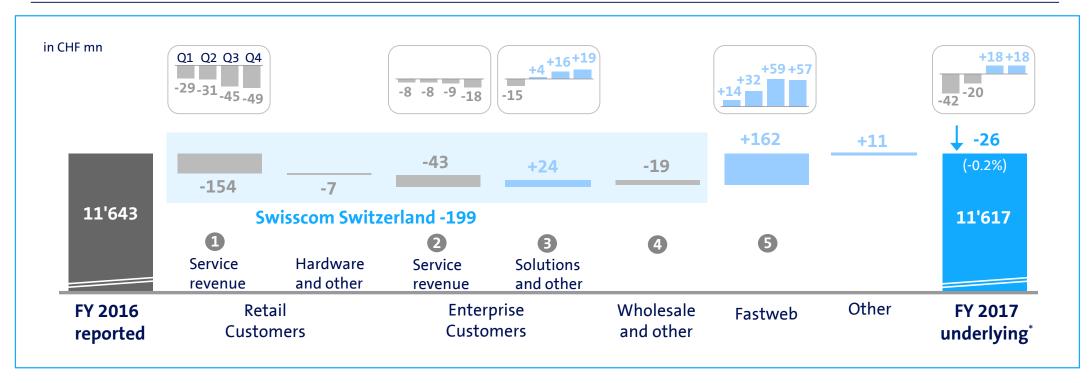

Resilient financial performance in line with expectations

Revenue breakdown by segments

Price pressure weights on revenues in the Retail segment, Fastweb up

- Lower voice access lines
 - TV, BB and wireless RGUs affected by market saturation
 - Impacted by roaming, discounts and promotion
- Price pressure in wireless and wireline business

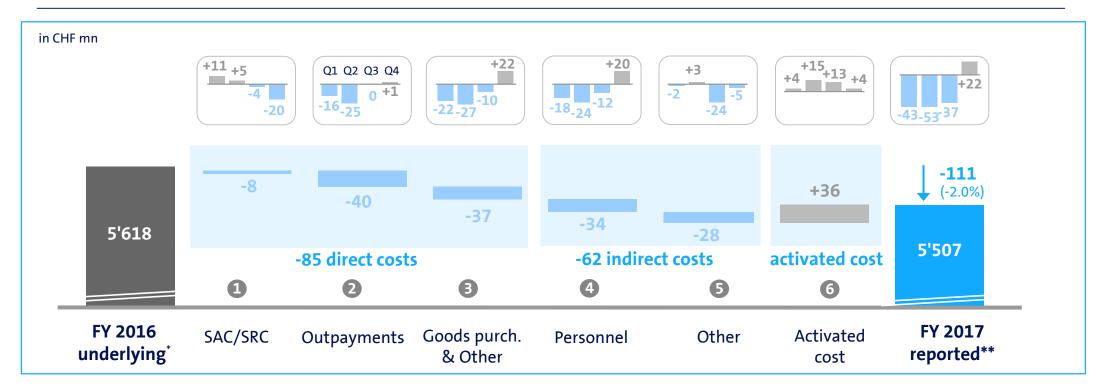

- Solutions and hardware sales with revenue increase in O3 and O4
- Lower revenue from decrease of MTR rates partly compensated by higher inbound roaming
- Fastweb with strong growth in Q3 and Q4 mainly due to impacts from 4-weeks billing and TIM cooperation

^{*} At constant currency rate, excluding change exchange rate (CHF 45mn)

OPEX of Swisscom Switzerland

Delivering on cost transformation and reducing further indirect cost base

- SAC/SRC decreased as retention volume for wireless customers decreased
- Outpayments down primarily due to lower MTR tariffs and international voice termination, Q3 and Q4 flat as lower MTR compensated by higher roaming cost
- Decrease driven by lower hardware

- Operational excellence leads to a FTE reduction at Swisscom Switzerland of -719 YoY. Higher extra pension cost in Q4, compensated on group level.
- Q3 and Q4 with seasonal effects (higher marketing and IT cost) and one-off items
- Less activated cost alongside with lower CAPEX

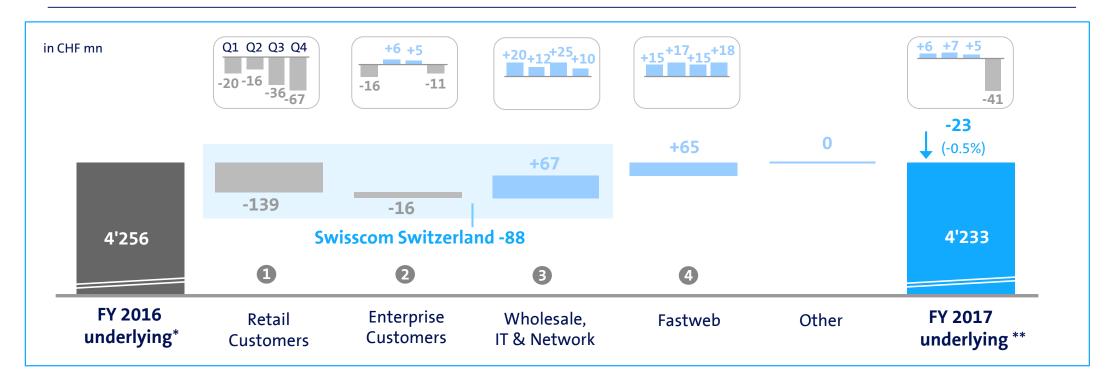

^{* 2016} Excluding gain from sale of real estate (CHF 17mn), provisions for restructuring (CHF -20mn) and for other risks (CHF -20mn)

^{** 2017} Excluding gain from sale of real estate (CHF 4mn) and provisions for restructuring (CHF -61mn)

EBITDA breakdown by segments

Cost saving only partly compensate for top-line erosion, Fastweb solid

- Lower costs partly compensate lower service revenue. However decrease accelerated in Q3 and Q4 due to bundle discounts and promotions
- 2 Price pressure in Telco services partly compensated by Solutions business and cost reduction, which led to a lower EBITDA (with better results in Q2-Q3)
- Increase is supported by higher inbound roaming revenue
- 4 Fastweb with an increase, supported by higher customer base, retroactive change in regulated prices and impact from 4-weeks billing

swisscom

^{* 2016} Excluding gain from sale of real estate (CHF 17mn), other income from litigations at Fastweb (CHF 60mn), provisions for restructuring (CHF -20mn) and for other risks (CHF -20mn)

^{** 2017} At constant currency rate, excluding gain from sale of real estate (CHF 4mn), provision for restructuring (CHF -61mn) and other income from litigations at Fastweb (CHF 102mn)

Underlying EBITDA changes of Swisscom Switzerland

Primarily structural-driven changes impact the domestic margin evolution

Outlook 2018

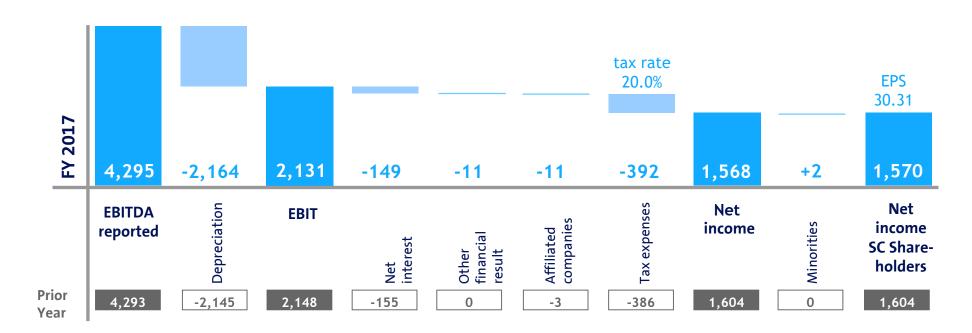

| | YOY impact | Quarterly evolution in CHF mn | FY impact | Outlook |

Net income

Overall sound bottom-line

in CHF mn

> Long-term tax rate expected to be around 21%

IFRS 15 – the new revenue recognition accounting standard

Considerations and implications for Swisscom

Key points

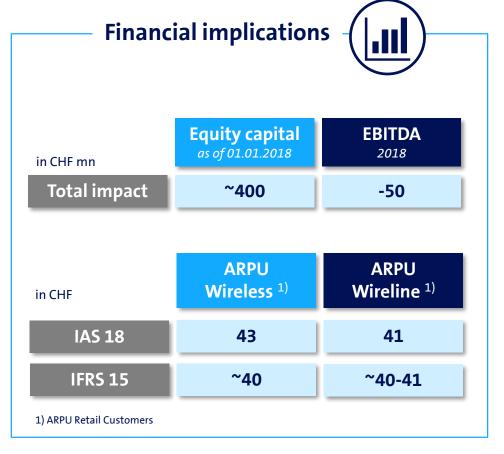

> In general

- > IFRS 15 standard effective from 1st Jan 2018
 - > Handset subsidies allocated to hardware revenue (impacting service revenue)
 - > New rule only applies to own channels
- > Changes primarily impact the segments **Retail Customers** and **Fastweb**
- > No underlying cashflow effect

> Swisscom's approach from Q1 2018 onwards

- > Service and hardware revenues reporting and **ARPU** methodology remain according to IAS 18 due to business reasoning and predictability
- > In addition ARPUs under IFRS 15 available
- > 2017 figures will not be restated

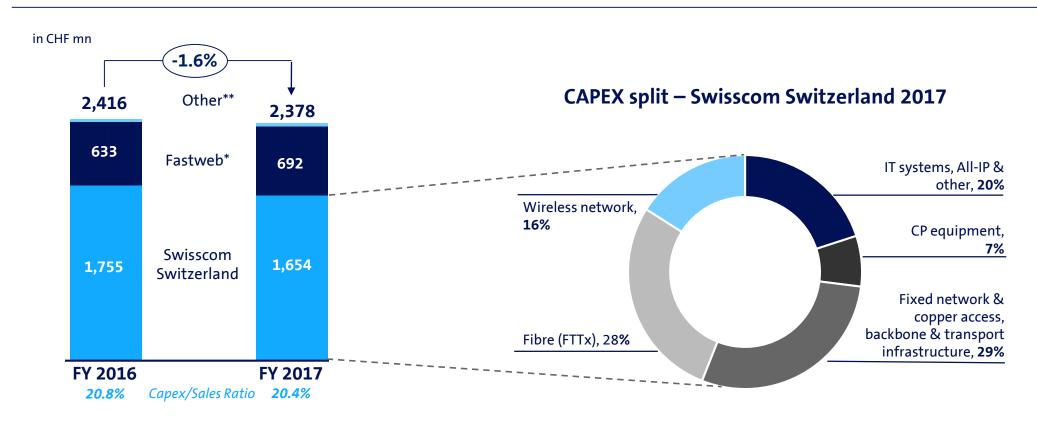

B/S

Capital expenditure

Investing to maintain fixed and mobile network leadership

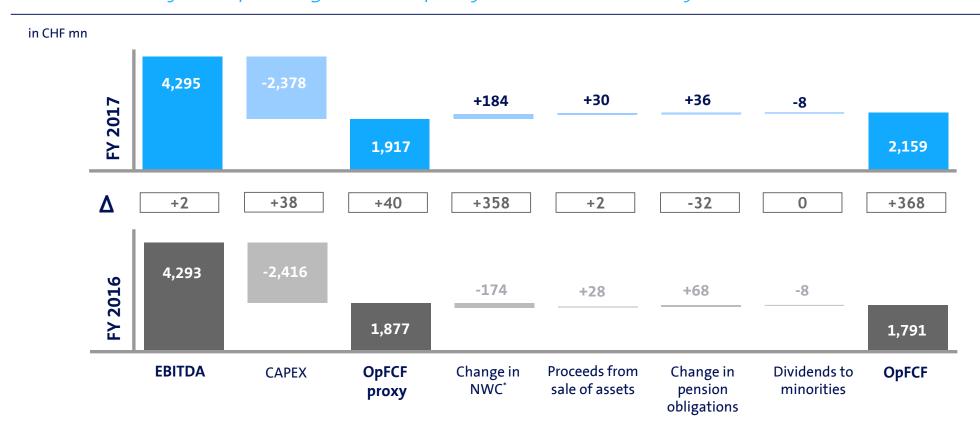

- > FTTx investment pace in Switzerland remains on a high level
- > Swisscom Switzerland down by CHF -101mn YOY driven by lower customer driven CAPEX as well as less project volume
- > In local currency Fastweb up by 7.1% due to higher customer driven CAPEX

Operating free cash flow

Increase in cash from operating activities partly due to extraordinary item

- > Prepayment of FeAC** sanction (CHF 186mn) in Q1 2016 led to higher net working capital compared to YE 2015
- > Lower net working capital compared to YE 2016 mainly as a result of decreasing trade receivables
- > In 2017 lower positive change in pension obligations due to an expected extraordinary payment (CHF 50mn)

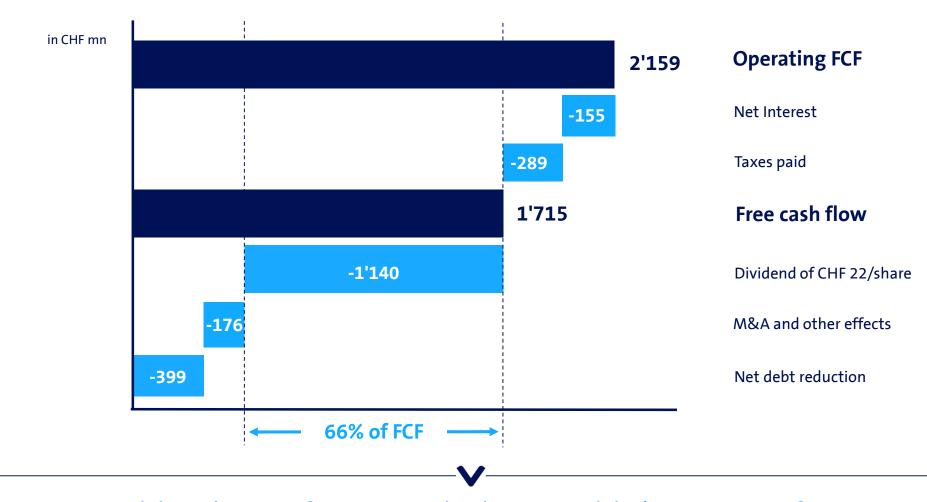

swisscom

71

Use of 2017 free cash flow

Cash flow

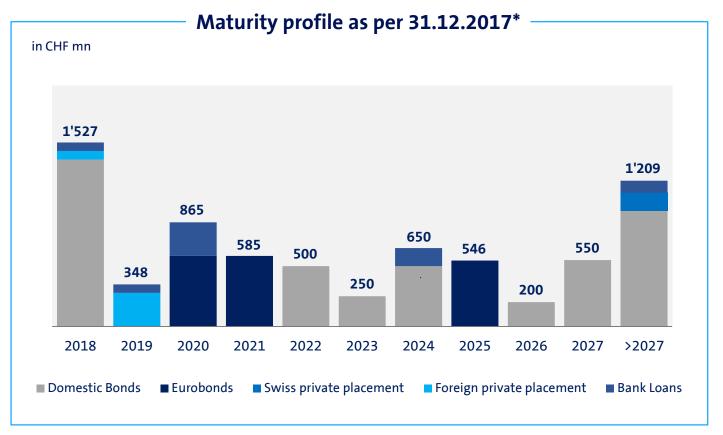

Two thirds of free cash flow used for shareholder payments

Smooth maturity profile

Further improvement of financing costs expected in 2018

^{*} excl. short-term money market borrowings

- > Several refinancing transactions lower our interest expense in 2018 by CHF 25mn, with full impact in 2019 in the range of another CHF 25mn
- > **Duration** increased to **5.3 years**
- > Average interest rate of portfolio (incl. derivatives) of 1.7%
- > Active management of interest rate risk within well defined risk limits: 84% fix, 16% floating
- > Refinancing need for 2018 of approx. CHF 1bn
- > Sources for refinancing: **Euro** and domestic capital markets

Shareholder distribution for the fiscal year 2017

Reliable dividend payments in harmony with cash flow and capital allocation

Dividend policy

- > Swisscom targets a **solid shareholder** distribution aligned with cash flow generation and capital allocation
- > Committed to preserve a solid single A Rating and a targeted equity ratio of around 30% and an (unadjusted) net debt/EBITDA ratio of around 1.9x

Payments per share

- > **Since 2011**, Swisscom paid-out a **stable** shareholder remuneration of CHF 22/share
- > Dividend **proposal to AGM** (4 April 2018): CHF 22 per share for the fiscal year 2017
- > **Time table 2018**: 5 April last trading date with entitlement to dividend, 6 April ex-date, 10 April payment date

Guidance

Net revenue of CHF ~11.6bn, EBITDA ~4.2bn and CAPEX <2.4bn

Retail Customers - segment reporting

Net revenue decreased driven by lower service revenue.

Service revenue decreased (-2.8%) due to lower access lines, lower roaming revenue (price decrease data packages, inclusion additional voice and data volumes in inOne price plans), higher discount volumes (inOne) and the abundance of TV activation fees.

Contribution margin 2 decreased by 3.8%. Lower Service revenue and higher cost for roaming, lower indirect cost (mainly personnel) partly compensate.
