1 Swisscom has been applying IFRS 16 “Leases” since 1 January 2019. The prior year’s figures have not been adjusted. As a consequence of the first-time application of IFRS 16, additional lease liabilities and right-of-use assets of CHF 1,314 million were reported with effect from 1 January 2019. As a result, the equity ratio fell to 34.2% as at 1 January 2019.

2 Definition operating income before depreciation and amortisation (EBITDA): operating income before depreciation and amortisation of property, plant and equipment, intangible assets and of right-of-use assets, gain on sale of subsidiaries, net financial result, share of results of equity-accounted investees and income tax expense. The EBITDA of the previous year includes expenses of CHF 99 million from operating leases in accordance with IAS 17.

3 Definition operating income (EBIT): operating income before gain on sale of subsidiaries, net financial result, share of results of equity-accounted investees and income tax expense.

4 Equity as a percentage of total assets.

5 Definition operating free cash flow proxy: operating income before depreciation and amortisation (EBITDA), less lease expense according to IFRS 16 and capital expenditure in property, plant and equipment and intangible assets.

6 Definition net debt: financial liabilities and lease liabilities less cash and cash equivalents, current financial assets, non-current fixed interest-bearing financial assets and derivative financial instruments for financing received.

7 Definition revenue generating units (RGU) in Switzerland: fixed telephony access lines, broadband access lines retail, Swisscom TV access lines and mobile access lines.

8 Closing price at end of period, multiplied by number of shares outstanding at end of period.

Financial review

Summary

Swisscom's operating results were within expectations in the first half of 2019. Net revenue of Swisscom fell by CHF 142 million or 2.4% to CHF 5,663 million; at constant exchange rates, net revenue declined by 1.7%. The year-on-year comparison of operating income before depreciation and amortisation (EBITDA) is affected by the application of new requirements for the recognition of leases (IFRS 16). At CHF 2,240 million, reported EBITDA was up by 4.5% or CHF 97 million, and 0.5% on a comparable basis. Net income decreased by 0.9% or CHF 7 million to CHF 780 million. The financial outlook for the 2019 financial year remains unchanged.

In the Swiss core business, revenue fell by CHF 139 million (–3.2%) as a result of ongoing price pressure and the decline in the number of connections in fixed-line telephony. In contrast, currency-adjusted revenue at Fastweb increased by CHF 44 million (+3.8%), driven by the revenue growth in business with residential and business customers. The number of customers with Fastweb increased year-on-year, by 4.0% to 2.6 million in the broadband business and by 27.3% to 1.6 million in mobile telephony. In the Swiss core business, EBITDA declined by 1.6% as a result of lower revenue, but was largely offset by the ongoing measures to reduce costs. At Fastweb, EBITDA rose in local currency by 6.6% as a result of the growth in revenue.

Swisscom's capital expenditure increased by 21.3% or CHF 228 million to CHF 1,297 million. This figure includes CHF 196 million paid for mobile radio frequencies which Swisscom acquired at auction in Switzerland. The frequencies were allocated in April 2019 and will remain with Swisscom until 2034. Due to the expenses for the mobile frequencies acquired and higher investments in the expansion of broadband networks, capital expenditure rose in Switzerland by 33.3% to CHF 961 million. Capital expenditure at Fastweb was stable at the high prior-year level of EUR 297 million.

Operating free cash flow proxy declined by CHF 268 million to CHF 806 million, primarily as a result of the CHF 196 million spent on mobile radio frequencies. Net debt climbed in the first half of 2019 by CHF 835 million to CHF 9,542 million. The main reason for the increase in net debt was the dividend payment of CHF 1,140 million made in April 2019. The number of employees at Swisscom declined by 1.7% year-on-year, to 19,564 FTEs. In Switzerland, headcount decreased by 332 FTEs to 16,871 FTEs.

Swisscom continues to expect net revenue of around CHF 11.4 billion, EBITDA of more than CHF 4.3 billion and capital expenditure of around CHF 2.5 billion (including costs of CHF 196 million for mobile radio frequencies in Switzerland) for 2019. Subject to achieving its targets, Swisscom will propose payment of an unchanged, attractive dividend of CHF 22 per share for the 2019 financial year at the 2020 Annual General Meeting.

Change in accounting policies

Swisscom has been applying IFRS 16 “Leases” since 1 January 2019. IFRS 16 generally has the following effects on the reporting of leases:

- The lessee must recognise a right-of-use asset as well as a corresponding lease liability for all leases. As regards lessors, they will continue to differentiate between finance and operating leases for financial reporting purposes.
- Costs arising from leases previously reported as operating expenses must now be recognised as depreciation and interest. This leads to a substantial rise in operating income before depreciation and amortisation (EBITDA). The effect on results at net income level is insignificant.
- Reporting of additional lease liabilities results in an increase in net debt.
- The application of IFRS 16 has no effect on cash flows.

IFRS 16 has the following effects on Swisscom’s financial reporting:

- Swisscom has been applying IFRS 16 since 1 January 2019. The consolidated financial statements for 2018 were not adjusted. As a consequence of the initial application of IFRS 16, additional lease liabilities and right-of-use assets of around CHF 1.3 billion were reported with effect from 1 January 2019.
- If IFRS 16 had been applied to the results of the 2018 financial year, this would have led to an increase in operating income before depreciation and amortisation (EBITDA) of around CHF 0.2 billion and higher depreciation and interest of some CHF 0.2 billion.
- EBITDA remains the primary key performance indicator in the reporting of financial results. For comparison purposes, the costs for operating leases for 2018 are reported under EBITDA within segment reporting.
- A new key performance indicator has been introduced: operating free cash flow proxy. It comprises EBITDA less lease expense and capital expenditure. The definition of capital expenditure remains unchanged from the previous year.
- The outlook for the 2019 financial year takes account of the changes resulting from IFRS 16.

Further information regarding IFRS 16 can be found in the notes to the consolidated interim financial statements.

Operating income before depreciation and amortisation (EBITDA)	1,121	1,085	3.3%	2,240	2,143	4.5%

1 Operating income of segments includes ordinary employer contributions as pension fund expense. The difference to the pension cost according to IAS 19 is recognised as a reconciliation item.

2 Swisscom has been applying IFRS 16 «Leases» since 1 January 2019. The operating result before depreciation and amortisation (EBITDA) of the segments for 2018 does not include any expenses for operating leases in accordance with IAS 17. The 2018 expense for operating leases in accordance with IAS 17 is shown as a reconciliation item.

¹ Includes expenses for operating and finance leases in accordance with IAS 17.

Net revenue for Swisscom Switzerland fell by CHF 139 million or 3.2% to CHF 4,256 million as a result of continuing price pressure and the decline in the number of connections in fixed-line telephony. Revenue from telecommunications services decreased by CHF 134 million or 4.3% to CHF 2,995 million. Of this decline, CHF 78 million (-3.0%) was attributable to the Residential Customers segment and CHF 56 million (-10.6%) to the Enterprise Customers segment. At Enterprise Customers, revenue from the solutions business contracted on the back of price pressure and lower volumes in the banking sector. This decrease was offset by higher revenue from merchandise. The number of inOne customers continues to grow. Swisscom Switzerland had a total of 2.57 million inOne customers at the end of June 2019, with the latest inOne mobile offering alone registering around 570,000 customers in its first five months since launch. In the Residential Customers segment, inOne accounts for 58% of postpaid mobile lines and 63% of broadband connections. The market is showing signs of saturation in the area of mobile communications and fixed-network services. The mobile subscriber base contracted by 66,000 (-1.0%) to 6.37 million. The number of postpaid lines grew by 73,000 year-on-year, while the number of prepaid lines fell by 139,000. Year-on-year, the number of broadband connections fell by 4,000 or 0.2% to 2.02 million. The number of TV connections increased year-on-year by 28,000 or 1.9% to 1.53 million, while the number of fixed telephony access lines fell year-on-year by 223,000 or 11.7% to 1.68 million.

Segment expense fell by CHF 109 million or 4.3% to CHF 2,418 million. Direct costs decreased by CHF 29 million or 3.2% to CHF 885 million. Higher costs for purchasing goods were offset by lower costs for subscriber acquisition and retention. Indirect costs were down 5.0% or CHF 80 million to CHF 1,533 million, mainly driven by the declining headcount and lower costs for external staff. Headcount fell year-on-year as a result of efficiency measures by 326 FTEs or 2.2% to 14,236, including 212 FTEs in the first half of 2019. The segment result before depreciation and amortisation was CHF 30 million or 1.6% lower at CHF 1,838 million as a result of lower revenue, but was largely offset by the ongoing cost-cutting measures. Due to the expenses for the mobile radio frequencies acquired and higher investments in the expansion of broadband networks, capital expenditure rose by CHF 243 million or 34.2% to CHF 954 million. As at end-June 2019, 68% of all households and businesses were connected with ultra-fast broadband exceeding 80 Mbps. 40% of all homes and offices benefit from connections with superior bandwidths of more than 200 Mbps.

¹ Includes expenses for operating and finance leases in accordance with IAS 17.

Fastweb's net revenue rose by EUR 38 million or 3.8% year-on-year to EUR 1,049 million. Despite difficult market conditions, Fastweb's broadband customer base grew by 100,000 or 4.0% year-on-year to 2.60 million. Fastweb is also growing in the fiercely competitive mobile telephony market. Year-on-year, the number of mobile access lines increased by 349,000 or 27.3% to 1.63 million. Around 33% of subscribers use a bundled offering combining fixed network and mobile. Residential customer revenue rose by EUR 21 million or 4.0% to EUR 542 million as a result of customer growth. Fastweb held its strong position in the market for business customers, with revenue from business customers up by EUR 48 million or 13.0% to EUR 416 million as a result of higher revenue with public administrations. Revenue from wholesale business, by contrast, decreased by EUR 32 million or 26.9% to EUR 87 million.

The segment result before depreciation and amortisation was CHF 21 million or 6.6% higher at CHF 339 million on the back of the growth in revenue. At EUR 297 million, capital expenditure remained at the high level of the previous year, driven by the further expansion of the network infrastructure. Fastweb's headcount was down slightly on the previous year at 2,451 FTEs.

Other Operating Segments

In CHF million, except where indicated	2. quarter 2019	2. quarter 2018	Change	1 st half-year 2019	1 st half-year 2018	Change
Revenue from external customers	128	143	-10.5%	266	270	-1.5%

Segment result	28	32	-12.5%	57	55	3.6%
Capital expenditure in property, plant and equipment and intangible assets				19	19	-
Full-time equivalent employees at end of period (number)				2,663	2,588	2.9%

1 Includes expenses for operating and finance leases in accordance with IAS 17.

The net revenue of the Other Operating Segments rose year-on-year by CHF 36 million or 8.5% to CHF 462 million. The increase was mainly due to higher revenue from construction services rendered by cablex. The decline in revenue from external customers was driven by the loss of Billag's mandate to collect national radio and television licence fees. The segment result before depreciation and amortisation improved year-on-year by CHF 6 million or 6.5% to CHF 98 million. This corresponds to a profit margin of 21.2%. Headcount rose by 75 FTEs or 2.9% to 2,663 FTEs, driven primarily by the hiring of new employees at cablex to cope with higher order volumes.

Group Headquarters and reconciliation

In CHF million, except where indicated	2. quarter 2019	2. quarter 2018	Change	1 st half-year 2019	1 st half-year 2018	Change
Group Headquarters	(21)	(31)	-32.3%	(39)	(52)	-25.0%
Reconciliation pension cost	(15)	(14)	7.1%	(29)	(29)	-
Reconciliation lease expense (IAS 17)	-	(47)	-100.0%	-	(99)	-100.0%

Operating income before depreciation and amortisation (EBITDA)	(42)	(98)	-57.1%	(79)	(188)	-58.0%

In 2018, the expense relating to operating lease arrangements were recognised as an operating expense and are shown here as a reconciliation item. As of 1 January 2019, this expense will be replaced by depreciation and interest. The other net costs not assigned to the operating segments, which comprise Group Headquarters, pension cost reconciliation and inter-segment eliminations, declined by CHF 10 million to CHF 79 million.

Depreciation and amortisation, non-operating results

In CHF million, except where indicated	2. quarter 2019	2. quarter 2018	Change	1 st half-year 2019	1 st half-year 2018	Change

Interest expense on lease liabilities	(7)	(6)	16.7%	(15)	(12)	25.0%
Other financial result	(28)	6		(25)	–	
Result of equity-accounted investees	–	2		2	–	
Income before income taxes	451	518	–12.9%	938	993	–5.5%
Income tax expense	(54)	(110)	–50.9%	(158)	(206)	–23.3%
Net income	397	408	–2.7%	780	787	–0.9%
Share of net income attributable to equity holders of Swisscom Ltd	397	409	–2.9%	782	790	–1.0%
Share of net income attributable to non-controlling interests	–	(1)	–100.0%	(2)	(3)	–33.3%
Earnings per share (in CHF)	7.66	7.90	–3.0%	15.10	15.25	–1.0%

¹ Including depreciation of assets under finance leases of CHF 16 million.

Due to the application of IFRS 16 Leases effective 1 January 2019, right-of-use assets are recognised and depreciated. The depreciation of right-of-use assets amounted to CHF 122 million in the first half of 2019. The depreciation and amortisation of property, plant and equipment and intangible assets increased by CHF 31 million or 2.9% year-on-year to CHF 1,111 million, mainly reflecting an increase in depreciation and amortisation at Swisscom Switzerland. Net interest expense excluding leasing declined from CHF 58 million to CHF 31 million as a result of lower average interest expense. Income tax expense was CHF 158 million (prior year: CHF 206 million), corresponding to an effective income tax rate of 16.8% (prior year: 20.7%). Income tax expense for the first half of 2019 includes positive tax effects of CHF 33 million resulting from the revaluation of deferred income tax items in connection with the adoption of the Swiss tax reform. The revaluation was in response to the federal and cantonal tax laws that came into force on 30 June 2019. Further changes to cantonal tax laws are expected to take effect during the course of the year and result in another tax rate reduction and additional positive tax effects from the valuation of deferred income tax items. Swisscom's net income decreased by CHF 7 million or 0.9% to CHF 780 million, and earnings per share were down accordingly from CHF 15.25 to CHF 15.10.

Other cash flows from financing activities	(6)	(6)	–
Net decrease in cash and cash equivalents	(119)	(17)	(102)

Operating free cash flow proxy declined by CHF 268 million to CHF 806 million, owing largely to higher capital expenditure. Capital expenditure increased year-on-year by CHF 228 million or 21.3% to CHF 1,297 million. This was driven by expenses of CHF 196 million for the mobile radio frequencies purchased by Swisscom Switzerland at auction in the first half of 2019.

Free cash flow declined year-on-year by CHF 87 million to CHF 376 million. Excluding Swisscom's purchase of mobile radio frequencies, free cash flow rose by CHF 109 million or 23.6%. This increase is attributable to the improvement in net working capital. Net working capital grew by CHF 161 million compared to the end of 2018 (prior year: increase of CHF 358 million).

In the first quarter of 2019, Swisscom issued a debenture bond for CHF 200 million. It has a coupon of 0.5% and matures in 2029. In addition, in May 2019 Swisscom increased a debenture bond by CHF 80 million. It has a coupon of 0.75% and matures in 2033. Net expenditure for company acquisitions and disposals includes the purchase price of CHF 240 million paid to Tamedia for the acquisition of the outstanding share of 31% in Swisscom Directories Ltd.

Equity-accounted investees and other non-current financial assets	295	217	35.9%
Equity	7,890	8,208	-3.9%
Equity ratio at end of period (in %)	32.6	34.2	

¹ Including effect of initially applying IFRS 16.

Equity fell by CHF 318 million or 3.9% to CHF 7,890 million, which corresponds to an equity ratio of 32.6% (34.2% as at 1 January 2019). The dividend payment amounted to CHF 1,140 million, compared to net income of CHF 780 million and other net positive effects recognised in equity of CHF 26 million. Cumulative currency translation losses included in equity remained unchanged from the end of 2018 at around CHF 1.7 billion.

Outlook

The financial outlook for 2019 remains unchanged. Swisscom expects net revenue of around CHF 11.4 billion, EBITDA of more than CHF 4.3 billion and capital expenditure of around CHF 2.5 billion (including costs of CHF 196 million for mobile radio frequencies in Switzerland) for 2019. Due to strong competition and price pressure and the ongoing decline in the number of fixed-line telephone connections, Swisscom expects revenue to be slightly lower without Fastweb. Fastweb's revenue is expected to increase slightly from 2018. The outlook for EBITDA in 2019 reflects the effect of the new accounting standard for leasing (IFRS 16) applicable from 2019 onwards. The application of IFRS 16 has increased reported EBITDA by around CHF 200 million. On a like-for-like basis and excluding the effects of IFRS 16, Group EBITDA will be lower in 2019 than in 2018. For Swisscom, excluding Fastweb, the decline in revenue cannot be fully compensated by cost savings. In contrast, an increase in EBITDA is anticipated for Fastweb on a like-for-like basis. Capital expenditure in Switzerland, excluding costs for acquiring additional mobile radio frequencies at auction, will be slightly less than in the previous year. Fastweb's capital expenditure is expected to be lower, because it will exclude the EUR 64 million spent on mobile radio frequencies in 2018. Subject to achieving its targets, Swisscom will propose payment of an unchanged, attractive dividend of CHF 22 per share for the 2019 financial year at the 2020 Annual General Meeting.

Notes to the interim financial statements

About this report

General information

The Swisscom Group (hereinafter referred to as “Swisscom”) provides telecommunication services and is active primarily in Switzerland and Italy. The unaudited consolidated financial statements as of 30 June 2019 comprise Swisscom Ltd, as parent company, and its subsidiaries. Swisscom Ltd is a limited-liability company incorporated in accordance with Swiss law under a private statute and has its registered office in Ittigen (Berne). Its address is: Swisscom Ltd, Alte Tiefenastrasse 6, 3048 Worblaufen. Swisscom is listed on the SIX Swiss Exchange. The number of issued shares is unchanged from the prior year at 51,801,943. The shares have a nominal value of CHF 1 and are fully paid-up. Each share entitles the holder to one vote. The majority shareholder of Swisscom Ltd is the Swiss Confederation (“Confederation”). The Confederation is obligated by current law to hold the majority of the capital and voting rights. The Board of Directors of Swisscom approved the issuance of these consolidated interim financial statements on 14 August 2019. No material events after the reporting date have occurred.

Basis of preparation

The consolidated interim financial statements for the six months to 30 June 2019 have been prepared in accordance with International Accounting Standard “IAS 34 Interim Financial Reporting” and should be read in conjunction with the consolidated annual financial statements for the financial year ended 31 December 2018. The consolidated interim financial statements were prepared in accordance with the accounting policies described in the 2018 consolidated financial statements and the revised accounting principles adopted on 1 January 2019.

In preparing the consolidated interim financial statements, management is required to make estimates and assumptions. Adjustments are made for changes in estimates and assumptions during the reporting period in which the original estimates and assumptions changed.

Swisscom operates in business areas where the provision of services is not subject to any major seasonal or cyclical fluctuations during the financial year. Income taxes are calculated on the basis of an estimate of the expected income tax rate for the full year. For the consolidated interim financial statements, a CHF/EUR exchange rate of 1.111 was used as the end-of-period rate (31 December 2018: CHF/EUR 1.127) and 1.128 as the average rate for the period (prior year: CHF/EUR 1.167).

1 Changes in accounting policies

As of 1 January 2019, Swisscom adopted various amendments to existing International Financial Reporting Standards (IFRS) and Interpretations; with the exception of the changes described below, these have no material impact on the results or financial position of the Group.

IFRS 16 Leases

IFRS 16 (in force as from 1 January 2019) replaces IAS 17, IFRIC 4 and SIC 27 and lays down the principles governing the recognition, measurement and disclosure of leases. For the lessee, IFRS 16 introduces a single accounting model for leases. The differentiation between finance and operating leases required until now under IAS 17 is thus dropped in future for the lessee. The lessee recognises leasing liabilities in its balance sheet for all future lease payments to be made as well as a right to use the underlying asset. In future, depreciation and amortisation and interest will be recognised in the income statement instead of rental expense. This will lead to a material increase in operating income before depreciation, amortisation and impairment losses. In the statement of cash flows, the share of the lease payments representing amortisation under the leases to be

accounted for under the new rules will reduce cash flows from financing activities and no longer cash flows from operating activities, as previously. Interest payments will continue to be reported as cash flows from operating activities. As regards lessors, they will continue to differentiate between finance and operating leases for financial reporting purposes. In this regard, the accounting model foreseen under IFRS 16 does not materially differ from the previous provisions under IAS 17.

Swisscom has elected to apply the modified retrospective approach for the initial adoption of IFRS 16. For reasons of simplicity, a reassessment as to whether a contract as of 1 January 2019 constitutes or includes a lease was dispensed with. The payment obligations arising under the operating leases disclosed in note 2.3 of the 2018 Annual Report for the most part comprise leasing payments from the rental of operation and office buildings as well as of antenna sites. The net present value of the payment obligations arising from current operating leases will be accounted for as a lease liability. The corresponding right-of-use assets are recognised in the amount of the lease liabilities. The reconciliation of payment obligations from operating leases as at 31 December 2018 for initial recognition as at 1 January 2019 is as follows:

In CHF million	1.1.2019
Obligations from operating leases as at 31 December 2018	1,298
Lease contracts and options previously not taken into account	102
Discounting	(86)
Carrying amount of finance lease liabilities as of 31 December 2018	384
Lease liabilities as of 1 January 2019	1,698

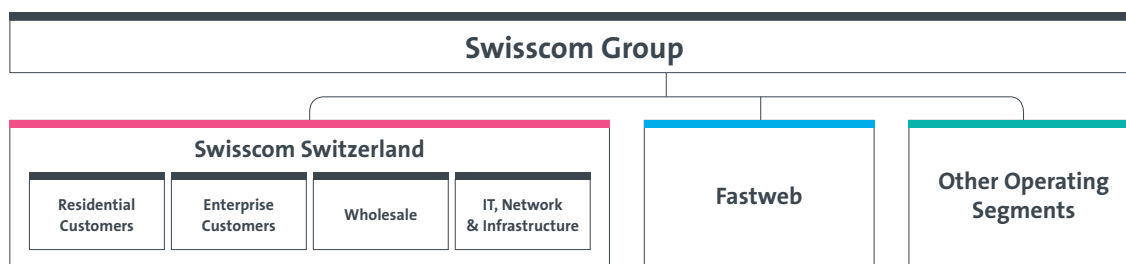

The lease liabilities were discounted using the incremental borrowing rate of interest applicable as at 1 January 2019. The weighted average interest was 0.6%. The impact of the first-time adoption of IFRS 16 on the balance sheet as at 1 January 2019 was as follows:

In CHF million	31.12.2018	Application IFRS 16	1.1.2019
Property, plant and equipment	10,894	(281)	10,613
Intangible assets	1,858	(88)	1,770
Right-of-use assets	–	1,683	1,683
Other financial assets	421	78	499
Other assets	9,413	–	9,413
Total assets	22,586	1,392	23,978
Financial liabilities	8,167	(306)	7,861
Lease liabilities	–	1,698	1,698
Miscellaneous liabilities	6,211	–	6,211
Total liabilities	14,378	1,392	15,770
Total equity	8,208	–	8,208
Total liabilities and equity	22,586	1,392	23,978

From the first-time adoption of IFRS 16 as at 1 January 2019, additional right-of-use assets and lease liabilities amounting to CHF 1,314 million are recognised. The prior year's comparative figures were not restated. The adoption of IFRS 16 has no impact on equity as of 1 January 2019. With regard to the 2018 financial year, the application of IFRS 16 would have led to an increase in operating income before depreciation, amortisation and impairment losses (EBITDA) of some CHF 0.2 billion and to higher depreciation and amortisation as well as interest expense of a combined aggregate amount of some CHF 0.2 billion. In addition, because SIC 27 no longer applies, other financial assets and financial liabilities previously not recognised in the balance sheet amounting to USD 79 million (CHF 78 million) are recognised. The Italian subsidiary, Fastweb, procures various access services from other fixed-network operators for the use of access lines to the end customer. A part of these access services is now classified as leases in accordance with IFRS 16. The value of the individual access lines fulfils the criterion as an asset of low value. Swisscom will apply the low value exemption of IFRS 16 for these leases. Accordingly, no right-of-use assets and lease liabilities will be recognised for these access services, the costs of which will continue to be reported as operating expense.

2 Segment information

General information

Reporting is divided into the segments “Residential Customers”, “Enterprise Customers”, “Wholesale”, and “IT, Network & Infrastructure”, which are grouped under Swisscom Switzerland, as well as “Fastweb” and “Other Operating Segments”. In addition, “Group Headquarters”, which includes non-allocated costs, is disclosed separately in segment reporting. Various areas were transferred between the segments of Swisscom Switzerland as at 1 January 2019. The prior year’s figures have been restated accordingly.

Group Headquarters does not charge any management fees to other segments for its financial management services, nor does the IT, Network & Infrastructure segment charge any network costs to other segments. The remaining services between the segments are recharged at market prices. The results of the Residential Customers, Enterprise Customers and Wholesale segments thus correspond to a contribution margin before network costs.

Indirect costs include personnel expense, other operating expense less capitalised costs of self-constructed assets and other income. Pension cost includes ordinary employer contributions. The difference between the ordinary employer contributions and the pension cost as provided for under IAS 19 is reported in the column “Eliminations”. In the first half of 2019, an expense of CHF 29 million is disclosed under “Eliminations” as a pension cost reconciliation item in accordance with IAS 19 (prior year: CHF 29 million).

Leases between the segments are not recognised in the balance sheet in accordance with IFRS 16. The reported lease expense of the segments in 2019 comprises depreciation and interest on the right-of-use asset and the accounting for the rental of buildings between segments. The lease expense of assets of low value is reported as direct costs. The lease expense of the segments in 2018 comprises the expense for operating and finance leases in accordance with IAS 17 and the accounting for the rental of buildings between segments. The reconciliation of the indirect costs of the segments to the consolidated values is reported in the column “Eliminations”. For the first six months of 2018, an expense of CHF 99 million is disclosed under “Eliminations” as an indirect cost reconciliation item.

Swisscom Switzerland sells some mobile handsets on a subsidised basis in a bundled offering with a mobile communications contract. As a result of the reallocation of revenue over the pre-delivered components (mobile handset), revenue is recognised earlier than the date of invoicing. This results in the recognition of contract assets deriving from this business. In segment reporting of Swisscom Switzerland, the recognition and dissolution of these contract assets is reported as other revenue. The amounts invoiced are reported under revenue from telecommunications services or merchandise.

a Interest expense, interest payments, non-cash changes in lease liabilities and foreign currency translation adjustments.

b Hierarchical levels 1–3 for measuring the fair value.

In the first quarter of 2019, Swisscom issued a debenture bond for CHF 200 million. It has a coupon of 0.5% and matures in 2029. In addition, in May 2019 Swisscom increased a debenture bond by CHF 80 million. The bond was issued in 2017. It has a coupon of 0.75% and matures in 2033. The financing thus received was applied to repay existing debts. As at 30 June 2019, Swisscom also had short-term bank loans on a weekly and monthly basis.

Repayment of other liabilities includes the purchase price of CHF 240 million paid to Tamedia for the acquisition of the outstanding share of 31% in Swisscom Directories Ltd. In the cash flow statement this payment is reported under the line item “Acquisition of subsidiaries, net of cash and cash equivalents acquired”.

6 Leases

Swisscom applied IFRS 16 “Leases” as at 1 January 2019 and elected to apply the modified retroactive approach for the first-time application. With this approach, right-of-use assets and lease liabilities were recognised in the same amount in the balance sheet. For further information, see Note 1, changes in accounting policies.

The leases of Swisscom comprise, in particular, the rental of operation and office buildings, of antenna sites and of network infrastructure. The Italian subsidiary, Fastweb, procures various access services from other fixed-network operators for the use of access lines to the end customer. Under IFRS 16 part of these access services is classified as a lease. The value of the individual access lines fulfils the criterion as an asset of low value. Swisscom applies the low value exemption of IFRS 16 for these leases. Accordingly, no right-of-use assets and lease liabilities will be recognised for these access services, the costs of which will be reported as direct costs.

Rights-of-use assets

In CHF million	30.6.2019	1.1.2019
Land and buildings	1,607	1,570
Technical installations and network infrastructure	136	111

Accruals for variable performance-related bonus	71	163
Other operating liabilities	436	344
Total other operating liabilities	1,121	1,127

9 Intangible assets

At the request of ComCom, the Federal Office of Communications (OFCOM) put all of the frequencies available for mobile communications up for auction. The auction took place from 29 January to 7 February 2019. Swisscom secured 45% of the frequencies auctioned by all bidders for the fifth generation of mobile technology and for previous generations for CHF 196 million. The frequencies were allocated in April 2019 and will remain with Swisscom until 2034.

10 Provisions and contingent liabilities

Provisions

Provisions changed as follows in the first half of 2019:

In CHF million	Dismantlement and restoration costs	Regulatory and competition law proceedings	Termination benefits	Others	Total
Balance at 31 December 2018	615	166	69	182	1,032
Additions to provisions	3	27	–	16	46
Present-value adjustments	49	7	–	–	56
Release of unused provisions	(3)	–	(1)	(7)	(11)
Use of provisions	(3)	–	(18)	(19)	(40)
Balance at 30 June 2019	661	200	50	172	1,083
Thereof current provisions	–	–	44	66	110
Thereof non-current provisions	661	200	6	106	973

Contingent liabilities arising from competition law proceedings

With regard to the contingent liabilities reported in the 2018 consolidated financial statements in connection with competition law proceedings, Swisscom is of the opinion that an outflow of resources is unlikely and, as before, has therefore not recognised any provisions for this in the consolidated financial statements as at 30 June 2019.

Forward-looking statements

This interim report is published in German and English. The German version is binding.

This interim report contains forward-looking statements. In this interim report, such forward-looking statements include, without limitation, statements relating to our financial condition, results of operations and business and certain of our strategic plans and objectives.

Because these forward-looking statements are subject to risks and uncertainties, actual future results may differ materially from those expressed in or implied by the statements. Many of these risks and uncertainties relate to factors which are beyond Swisscom's ability to control or estimate precisely, such as future market conditions, currency fluctuations, the behaviour of other market participants, the actions of governmental regulators and other risk factors detailed in Swisscom's and Fastweb's past and future filings and reports, including those filed with the U.S. Securities and Exchange Commission and in past and future filings, press releases, reports and other information posted on Swisscom Group Companies' websites.

Readers are cautioned not to put undue reliance on forward-looking statements, which speak only of the date of this communication.

Swisscom disclaims any intention or obligation to update and revise any forward-looking statements, whether as a result of new information, future events or otherwise.
