

Samsung Galaxy Tab Active 8" LTE

Model: SM-T365NNGAUT

EAN-Code: 8806086478243

Water, dust and shock resistant with KNOX 2.0 Security wherever you go.

Ready for Anything

It repels raindrops. It resists sand and dust particles. It can take a drop: a fall up to 1.20m is no problem. The Tab Active is IP67-certified, water and dust resistant and MIL-STD 8010G anti-shock.

Camera, Made for Codes

Sure, it can also take photos. But it's especially optimised to recognise all types of codes precisely and quickly. It comes pre-installed with the Honeywell app. For anyone who doesn't rely on QR or barcodes: your tablet has tapless NFC capability.

Obstacle-free Operation

Connect accessories via the cover-free USB slot. Stay in control with the stylus pen when you've got gloves on. Change the battery when you need more energy. Or charge your tablet quickly with the POGO cable.

Design without Compromise

Who says tough can't also look good? The Tab Active, with its protective rubber cover, is as rugged as it gets. And it's still thinner and lighter than any other outdoor tablet.

Samsung

KNOX

2.0

Gapless Security

A concept of security for corporate data cannot have gaps. That's why KNOX 2.0 is integrated in both the software and hardware right down to the processor core. Thus you have around-the-clock control of who uses your tablet for what purpose.
