Internet-Box fibre-optic kit

Switch to fibre optics technology

(Deutsch auf der Rückseite)

Start

The package includes:

1 You have one of these Internet-Boxes.

Installation is identical for all Internet-Boxes. It is explained stepwise for Internet-Box 2.

2 Switch off the Internet-Box and remove the DSL cable.

3 Insert the fibre optic module.

Push in the fibre optic module into the «fibre» insert until it clicks in. The blue markings on the fibre optics module (bracket) and Internet-Box belong on the same side.

11 You are now surfing with fibre optic technology!

Wireless HD-Phone connections
(Optional)
For information about HD-Phones from Swisscom please visit www.swisscom.ch/hdphones

1 Internet-Box: press + button

2 HD-Phone: select connection mode

N.B.: conventional DECT wireless phones cannot be linked directly to the Internet-Box over a wireless connection. Please use the «phone 1/2» ports.

10

Connect your telephone.
(if you are a fixed network subscriber)

www.swisscom.ch/internetbox-help

9

Now only connect your telephone and/or fax machine to the Internet Box (phone 1/2) – and not the telephone socket as before – if necessary with the black adapter.

Remove your old Internet/telephony installations (if any).

8

You can return old devices to Swisscom for **recycling** free of charge. A return label is included on the delivery slip.

Connect your computer and open your Internet browser.

7

6 Switch on the Internet-Box and wait 5 minutes.

Connect the computer per Ethernet cable or to your existing WLAN. If the registration page is displayed on www.bluewin.ch please complete all mandatory fields step by step. If the page is not displayed, continue.
