1 Billed according to the roaming standard tariff: calls/SMS/MMS within the EU/Western Europe after roaming days are used up, calls outside the EU/Western Europe after minutes allowance is used up, SMS/MMS outside the EU/Western Europe after 1000/mth Data: connection blocked after data allowance is used up. Data packages can be purchased at cockpit.swisscom.ch to continue surfing. Detailed country list and general tariffs can be found at swisscom.ch/sme-roaming
2 Data allowance applies for almost all countries. Detailed country list, excluded countries and general tariffs can be found at swisscom.ch/sme-roaming
3 Detailed country lists and tariffs for other country groups outside EU/Western Europe can be found at swisscom.ch/sme-international
4 Once the data allowance is used up, the download speed is slowed down to 128 Mbit/s.
5 A special SIM is required for each additional device. A minimum contract period starting from activation to the end of the following month applies to the additional device in the specific category. For all Multi Device info go to swisscom.ch/multidevice
6 The available speed depends on local optical fibre expansion and the router that is used. A Swisscom connection with an optical fibre line to the business premises is usually required for identical upload and download bandwidths. Check the maximum speed available for your business address at swisscom.ch/checker

7 Guaranteed faults rectification by next working day: We prioritise recovery of your services and ensure that they are back in operation as usual by the next working day (within 10 hours during the support times Mon–Fri 8 am–7 pm and Sat 8 am–5 pm).
8 The service covers all common maintenance and support services for up to five devices of the customer, and can at most be activated twice per calendar year.
9 Additional phone numbers possible: Each available with per minute rate 9.–/mth (with Business Telephony L, M and S) or free national telephony 19.–/mth (only with Business Telephony L). Phone numbers with per minute rate: 0.08/min to all Swiss fixed networks, 0.30/min to all Swiss mobile networks including Liechtenstein. Billing is in CHF 0.10 blocks.
10 Round-the-clock in all fixed and mobile networks of all countries in the EU/Western Europe, USA (excl. territories of the USA) and Canada.
Unlimited calls/SMS/MMS: calls/SMS/MMS to business, short-dial and special numbers are chargeable. Unless expressly specified otherwise, all tariffs and data allowances apply for use in CH. All listed subscriptions apply for normal personal use. Swisscom reserves the right to curtail or restrict the service or take other appropriate steps if it establishes that usage considerably exceeds normal levels, or if there are justified indications that the connection is used for special applications (e.g. surveillance applications, machine-to-machine, direct dial and continuous connections). swisscom.ch/fup
