

DAZN starts on Swisscom TV

The streaming service DAZN is now also available on UHD Swisscom TV Box: without labourious switching, Swisscom TV gives customers access to all matches broadcast by DAZN from the English Premier League, the Spanish La Liga and other international sports highlights.

DAZN will be available to Swisscom TV customers during the course of the day. Swisscom customers can thus enjoy all live broadcasts on DAZN in comfort and optimal quality on their televisions. The mobile app is available to customers on the go on a range of mobile devices. DAZN shows hundreds of live broadcasts every week and, in addition to top-class European football, also offers numerous other international sports highlights, such as basketball, baseball and American football from the North American NBA, MLB and NFL leagues or darts and tennis.

Complete football offer at Swisscom TV

“I am delighted that we are continuing to expand our sports range with DAZN,” says Dirk Wierzbitzki, Head of Products & Marketing and member of the Group Executive Board. In combination with the live broadcasts from Teleclub in particular, Swisscom TV now has a wide spectrum of football on offer that is unsurpassed in Switzerland. “Our customers now really have all important leagues within reach at Swisscom TV. I personally am already really looking forward to the upcoming derby between Manchester City and Manchester United.”

DAZN costs 12.90 Swiss francs per month and can be cancelled with a month's notice. Billing via Swisscom will not initially be possible, but this option should follow in the future.
