

Internet-Box 3

Simple, secure and super-fast. This is Internet Box 3, the latest router from Swisscom.

Internet Box 3 supports the latest Wi-Fi 6 (802.11ax) standard for WLAN. This permits faster WLAN speeds of up to 4.8 Gbps, higher WLAN capacity for even more devices and a lower WLAN susceptibility to interference. The FTTH technology XGS-PON for Internet speeds of up to 10 Gbps is now also supported.

Of course, Internet Box 3 is compatible with the popular WLAN Box. Now business customers with an inOne SME office subscription also receive Internet Box 3.

Specifications

- Super-fast WLAN with the latest Wi-Fi 6 standard: 2.4 + 5 GHz
