

Smart Life – smart ideas for your everyday life

Little helpers, big impact: our smart ideas for your smart home and your travels will make life just that little bit easier. At Swisscom, you'll find a selection of the best devices – easily & centrally controlled with our Home app.

Faits

- Check out a curated selection of smart devices at selected Swisscom Shops and online
- Most of the products can be controlled with the Swisscom Home app
 - Manage a host of smart devices with just one easy-to-use app – supported by simple user guidance including installation help
 - Remote control: control your devices even when you are out and about and keep an eye on what's going on at home
 - Link devices and automate actions, using presence simulation, for example, to randomly switch on lights when you're on holiday
 - Perform multiple actions and activate devices at the touch of a button
 - You can now also use the Swisscom Box to control some functions with your voice
 - More information: www.swisscom.ch/homeapp

Price and availability

The Swisscom Home app is free of charge. For detailed information about the devices and applications as well as participating Swisscom Shops, see www.swisscom.ch/smart
