inOne mobile prepaid

- The inOne mobile prepaid go and young packages, which can be added at the basic tariff, are valid for 30 calendar days and renew automatically at midnight upon expiry of the 30 days, provided sufficient credit is available (e.g. purchased at 17.00 on 23.1.2021, valid until 00.00 on 22.2.2021). If there is insufficient credit available at the time of automatic renewal, package renewal will be temporarily suspended and usage will be billed at the basic tariff. As soon as sufficient credit is available, automatic renewal will be re-activated and the package price will be deducted from the credit. Automatic package renewal can be deactivated at cockpit.swisscom.ch. Services that are not included (e.g. calls to not included numbers) will be charged at the basic tariff (e.g. calls at 29 centimes/min). If the highspeed data allowance is used up before expiry of the 30-day period,

an additional data package can be purchased. If the data allowance is not used up within the validity period, it will be forfeited.

- The inOne mobile prepaid young package is available for children and young people aged between 7 and 18 years. The customer may not pass on this offering for the use of a third party. Once the upper age limit has been passed, the tariff will automatically switch to the inOne mobile prepaid basic tariff.
- Unlimited calls to all Swiss networks, unlimited SMS/MMS in Switzerland and abroad, unlimited surfing in Switzerland with data download of up to 50 Mbit/s, data upload of up to 10 Mbit/s.
- Applies to calls of up to 120 minutes. Each further part hour thereafter costs 60 centimes. The basic tariff does not apply to calls to business, short and special numbers.
- Domestic calls to 5 predefined included numbers are included

as part of normal personal use (Swisscom mobile or fixed network numbers; value services and short numbers are excluded). Call forwarding to these included numbers will be billed at the standard tariff.

- The basic tariff does not apply to SMS/MMS to value added services and short numbers.
- In the Swisscom mobile network: data download of up to 50 Mbit/s, data upload of up to 10 Mbit/s. Max. 10 GB per month; thereafter reduced to 128 kbit/s. Data can also be transferred without any action on the part of the customer, e.g. automatic updates/synchronisation of e-mail, cloud storage, apps or operating systems. You can prevent this by deactivating all data connections in the system settings for your device. Please note that this will also stop apps (e.g. weather, stock exchanges, news, route planning, social networks etc.) from working.

8 Unlimited surfing in Switzerland with data upload and download speeds of 128 kbit/s.

- 500 MB highspeed data download in Switzerland with up to 50 Mbit/s, data upload of up to 10 Mbit/s. Then continued unlimited surfing at a reduced speed of 128 kbit/s.

10 With the inOne mobile prepaid young package, parents are able to monitor the monthly credit as sponsors. If the sponsor must have a Swisscom residential mobile subscription (not valid for NATEL[®] data-subscriptions) and be at least 18 years of age. On the first day of the month, a set amount (at least 10.–) will be credited to the child's credit balance automatically and debited from the sponsor's (parent's) mobile bill.

- 11 On expiry of the 30-day period, or if the data allowance has been used up, the 500 MB, 2 GB and 5 GB data packages are renewed automatically if sufficient credit is available. If credit is less than the package price at the time, each day of use will

be debited until the next top-up or automatic renewal. In the Swisscom mobile network: data download of up to 50 Mbit/s, data upload of up to 10 Mbit/s.

- 12 On expiry of the 30-day period, Voice basic and plus will be renewed automatically if sufficient credit is available. If credit is less than the package price at the time, package renewal will be temporarily suspended until sufficient credit is available again. Automatic package renewal can be deactivated at cockpit.swisscom.ch.

13 Surf at the maximum available speed for 24 hours, with 5G at up to 2 Gbit/s in Switzerland. The package is not renewed automatically.
