

# E-banking is getting even easier. With the e-bill.

---

With your e-bill, you can receive, check and pay your bills directly in e-banking.

## Benefits

-  **Simple:** With e-bills you no longer need to type in reference numbers, invoice amounts or account details.
-  **Fast:** You can check and pay your e-bills in just a few clicks of the mouse.
-  **Paperless:** The e-bill is paperless – to the benefit of the environment. You can, of course, save your e-bills in PDF format on your computer.
-  **Checkable:** You can check and approve each e-bill, or click to reject it if there are any discrepancies.
-  **Secure:** The e-bills are transmitted securely.

## It's so easy to pay your e-bill.

E-bills are sent to your e-banking electronically instead of by post to your letter box. After logging into e-banking you will be shown your new e-bills. With a few mouse clicks you can check your e-bill and authorise payment.

## It's so easy to get your e-bill.

-  If you already have an e-banking account with your bank or the post office, you are just a few mouse clicks away from your e-bill. If you don't yet have an e-banking account and would like to open one, please contact your bank or post office.
-  In order to receive e-bills, register in e-banking with Swisscom by going to E-bill > List of billers.
-  The details that you need in order to register for your e-bill are all on your Swisscom bills.
-  Once you have switched to e-bills, you can keep a constant overview of things. Your customer details and your current costs can be found at [www.swisscom.ch/customercenter](http://www.swisscom.ch/customercenter)
-  You are now registered for e-bills with Swisscom and will no longer receive your invoices on paper.

For more information on e-bills and for an informative short film, please go to [www.e-bill.ch](http://www.e-bill.ch).
