NATEL[®] liberty offers apply only to normal voice telephony and normal data transmission in Switzerland. After appropriate prior notice, we reserve the right, at any time, to allocate you to a different NATEL[®] service, or to limit the transmission speed (download/upload.) This applies in particular if you use the SIM card for machine-machine, direct dial, permanent and back-up connections and applications, as well as when you regularly use services with very high data volumes.
