swisscom

Internet

In Switzerland and EU/Western Europe

Data transfer in Switzerland	unlimited
Data transfer in EU/Western Europe	included

Enjoy the maximum available Internet speed while travelling, up to a data volume usage of 40 GB per month. Thereafter speed is reduced to 128 kbit/s for downloading, 64 kbit/s for uploading. However, no additional costs are incurred. To be able to surf at the maximum available speed again, you will need to buy a data package from the Swisscom Cockpit.

Outside Switzerland and EU/Western Europe

Data transfer	100 MB/mth.
---------------	-------------

Data roaming is deactivated by default. The inclusive data volumes apply to all countries outside the EU/Western Europe. With the exception of: Afghanistan, Burundi, Cuba, Djibouti, East Timor, Ethiopia, French Polynesia, Guam, Liberia, Libya, Mali, Namibia, Nepal, New Caledonia, Zimbabwe. The inclusive units cannot be used on ships and ferries and on flights.

Data package available at [the Cockpit](#)

Speed

Data download in Switzerland	up to 200 Mbit/s
Data upload in Switzerland	up to 100 Mbit/s

SMS/MMS

In Switzerland and EU/Western Europe

Sending SMS/MMS within Switzerland and to other countries unlimited

Receiving SMS/MMS no charge

Excludes special numbers and value-added services.

Outside Switzerland and EU/Western Europe

Sending and receiving SMS/MMS 1000 SMS/MMS per mth.

Value-added services and special numbers are excluded.
After the included units have been used up, sending SMS/MMS
and receiving MMS is charged at CHF 0.40 per message.

All prices in CHF including VAT

The inOne mobile subscriptions apply for normal personal use and primary use within Switzerland. Outside of Switzerland, subscriptions apply for normal personal use while travelling and during temporary stays abroad. Swisscom reserves the right to curtail or restrict the service or take other appropriate steps if it establishes that usage deviates significantly from the norm (e.g. use primarily outside of Switzerland), or if there are justified indications that the SIM is being used for special applications (e.g. surveillance applications, machine-to-machine, direct dial or continuous connections).
