The additional amounts may not exceed per remuneration period overall half of the last approved total amount of the maximum remuneration of the Executive Board.

8. Joint Provisions for Members of the Board of Directors and Executive Board

8.1 Success and Participation Plans

8.1.1 The remuneration of the members of the Board of Directors consists namely of a Board of Directors fee related to function and meeting attendance fees. The remuneration of members of the Board of Directors takes the responsibility and function of the members of the Board of Directors into account. The level of the remuneration elements is determined by the Board of Directors within the framework of the total amount of remuneration of the Board of Directors approved by the Shareholders' Meeting. A portion of their fee is paid to members of the Board of Directors in restricted shares of the Corporation in order to guarantee a direct involvement in the long-term value development. To further reinforce the alignment with the share-holders' interests the Board of Directors can decide on guidelines for setting up and holding a minimum portfolio of shares of the Corporation for the members of the Board of Directors.

8.1.2 The remuneration of the members of the Executive Board consists of fixed remuneration elements and a variable performance-related component. The variable component is intended to create an incentive to improve the company results and in this way to continually enhance the corporate value. It is measured by the achievement of performance targets determined by the Board of Directors at the beginning of the corresponding performance period. The performance targets can include personal targets, corporate and unit-specific targets of financial and non-financial nature, taking the function of the Executive Board member into account. The variable component provided for in the event of achieving the targets (target variable component) can amount to up to 70% of the annual base salary for the individual Executive Board member. In the event of the targets being exceeded, the variable component can amount to a maximum of 100% of the annual base salary. The level of the variable component is determined by the Board of Directors on the basis of the target achievement within the framework of the total amount of remuneration of the Executive Board approved by the Shareholders' Meeting. The fixed remuneration

neration and/or variable remuneration are paid in part in shares, comparable instruments and/or units determined by the Corporation in order to guarantee direct participation in the long-term value development. To reinforce the alignment with shareholders' interests further the Board of Directors can decide on minimum shareholding guidelines for the members of the Executive Board.

- 8.1.3 The variable component for the members of the Executive Board is normally paid under the Management Incentive Plan to at least 25% in restricted shares of the Corporation. The members of the Executive Board have the option of increasing the share proportion on a voluntary basis. The function-dependent annual fee is normally paid to a third in restricted shares of the Corporation for members of the Board of Directors under the Management Incentive Plan. The allocation of the shares under the Management Incentive Plan occurs on the basis of the tax value. The restriction period is normally three years.

The Restricted Share Plan issued by the Board of Directors serves to support recruitment and retention of key personnel. Under the Restricted Share Plan the Board of Directors can also pay a portion of the remuneration for individual Executive Board members in the form of units ("Restricted Share Units"). After a vesting period of normally three years and on the condition of an unterminated employment these units entitle the holder to obtain shares in the Corporation free of charge. The calculation value of the units corresponds to the market value of the shares at the time of allocation.

- 8.1.4 The Board of Directors in each case specifies the details for shares paid out, comparable instruments and/or units specified by the Corporation such as any expiry conditions, exercise conditions and periods, restriction periods and the time of the allocation and evaluation; it can provide for exercise conditions and periods and restriction periods being shortened or cancelled, remuneration being paid on the assumption of target values being achieved or the expiry of remuneration on account of the occurrence of events determined in advance such as termination of employment or a mandate relationship. In this regard, the Board of Directors takes the long-term interests of the Corporation into account, including

its ability to recruit suitable personnel on the labour market and the ability to bind employees to the Corporation.

8.2 Contracts

- 8.2.1 The Corporation or companies controlled by it can conclude fixed-term or indefinite contracts with members of the Board of Directors, on which the remuneration is based. The duration and termination depend on the term of office and the laws.
- 8.2.2 The Corporation or companies controlled by it can conclude employment contracts with members of the Board of Directors for an indefinite period with a period of notice of a maximum of twelve months.

8.3 External mandates

- 8.3.1 No member of the Board of Directors can hold more than three additional mandates in listed companies and ten additional mandates in unlisted companies. No member of the Board of Directors can hold more than a total of ten additional mandates. If mandates are exercised in companies that are linked by a control relationship, the main mandate is fully counted; each additional mandate is counted to one-fifth.
- 8.3.2 No member of the Executive Board can hold more than one additional mandate in listed companies and two additional mandates in unlisted companies. No member of the Executive Board can hold more than a total of two additional mandates. If mandates are exercised in companies that are linked by a control relationship, the main mandate is fully counted; each additional mandate is counted to one-fifth.
- 8.3.3 The following mandates are not covered by these restrictions:
- Mandates in companies controlled by the Corporation or which control the Corporation;
 - mandates that a member of the Board of Directors or of the Executive Board holds on the orders of the Corporation or com-

panies controlled by it. No member of the Board of Directors or the Executive Board can hold more than ten such mandates and

c. mandates in interest groupings, charitable associations, institutions and foundations and employee benefit foundations. No member of the Board of Directors or the Executive Board can hold more than seven such mandates.

8.3.4 The obligation to observe the appropriate due care in accordance with the relevant legal provisions remains applicable in each case. The Board of Directors will issue additional guidelines, especially on a consultation obligation of the members of the Board of Directors and the approval procedure for members of the Executive Board.

8.3.5 Mandates in the supreme management or administrative body of a legal unit that is obliged to be entered in the commercial register or a corresponding foreign register are regarded as mandates.
