

# iO: an unbeatable offer

iO connects you with the entire world: communicate over the Internet simply, securely and cost effectively

## Features

- > Everything in one app: make calls, write messages and share images
- > All conversation, chat and image history displayed together in one view
- > Status reports let you know if your contacts are currently online, if they're writing a message or when they were last online.
- > Additional features such as group chat, video telephony and a tablet version of the app will be available soon.
- > Secure data storage in Switzerland

## Download and registration

- > Smartphone users on iOS or Android operating systems can download the app free of charge from the Apple and Google App Stores. The app is available for:
  - > Android 4.0 or higher (e.g. for Samsung Galaxy S3, S4, HTC One and on Sony Xperia)
  - > iOS 5.0 or higher (for iPhone 4 and newer)
- > Simple and secure registration via your personal mobile number. Additional options (see table) can only be ordered online at [io.swisscom.ch](http://io.swisscom.ch)

## Further information

- > FAQ for support queries at [io.swisscom.ch](http://io.swisscom.ch)
- > Further details on iO can be found at [io.swisscom.ch](http://io.swisscom.ch)

## Options overview

| Mobile subscription                                  | Community *   | Switzerland **  | Europe, US & Canada **  |
|--|---|---|---|
|  | Making iO to iO calls. Requirements: both parties have Internet access and the iO app | Making calls from iO to Swiss networks. Requirements: caller has the iO app and Internet access | Making calls from iO to foreign networks. Requirements: caller has the iO app and Internet access |
