### Platforms (URL name pattern):

The general WSG outbound URL name pattern for web services is: `https://webservices.swisscom.com/wsg/<system>/<part>/<name>[V<version>]`  
see the following list for the several platforms and their **<system>** entities:

| Platform (URL) | URL                                                                                      | Remark                                                                     |
