8	526945			Hinterer Gasse	5		Gränichen	4006	Gränichen	5722	646

## WSG

### Change in data availability

#### **Preliminary Information:**

From May Release 2026, access to the RfM and RfO lists will be restricted to recipients of wholesale products such as ALO and BBCS.

The RfM and RfO lists contain information from the various cooperation partners and also swisscom-specific information on the planned and existing FTTH connections throughout Switzerland as well as the wholesale services and technologies offered on them.

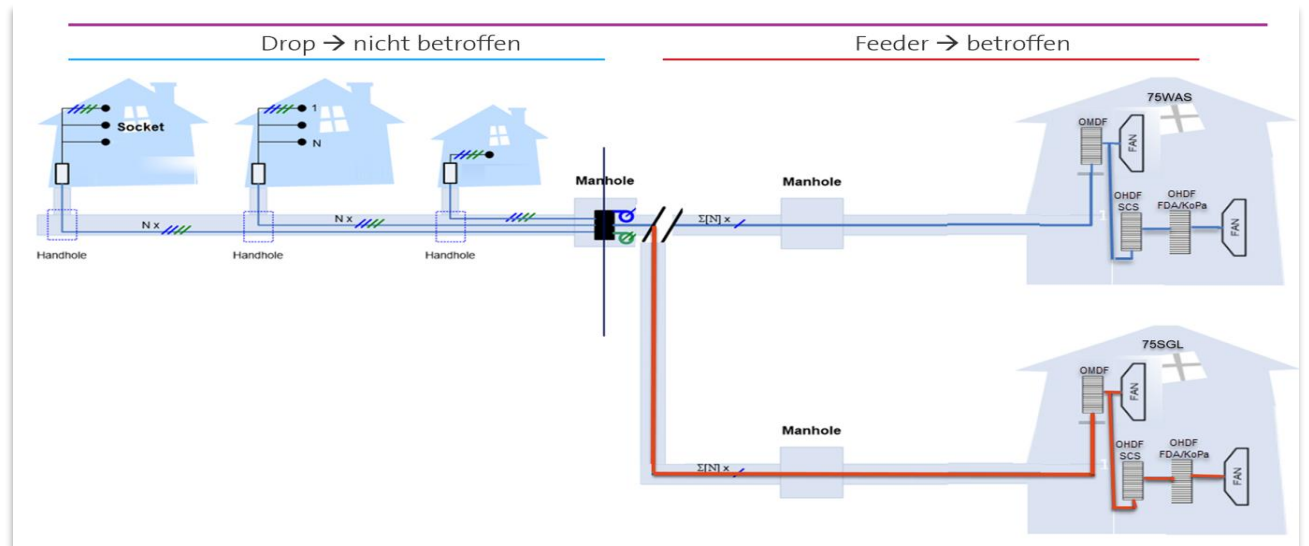

# Service Fulfillment

## FTTH UMSA with CO Move

As announced at the ISP training, the new "FTTH UMSA with CO Move" process is being introduced with this release. It supports the planned CO removals as part of the FTTH network modernization and regulates the coordinated switching of affected connections.

The existing BBCS-F UMSA process remain unchanged.

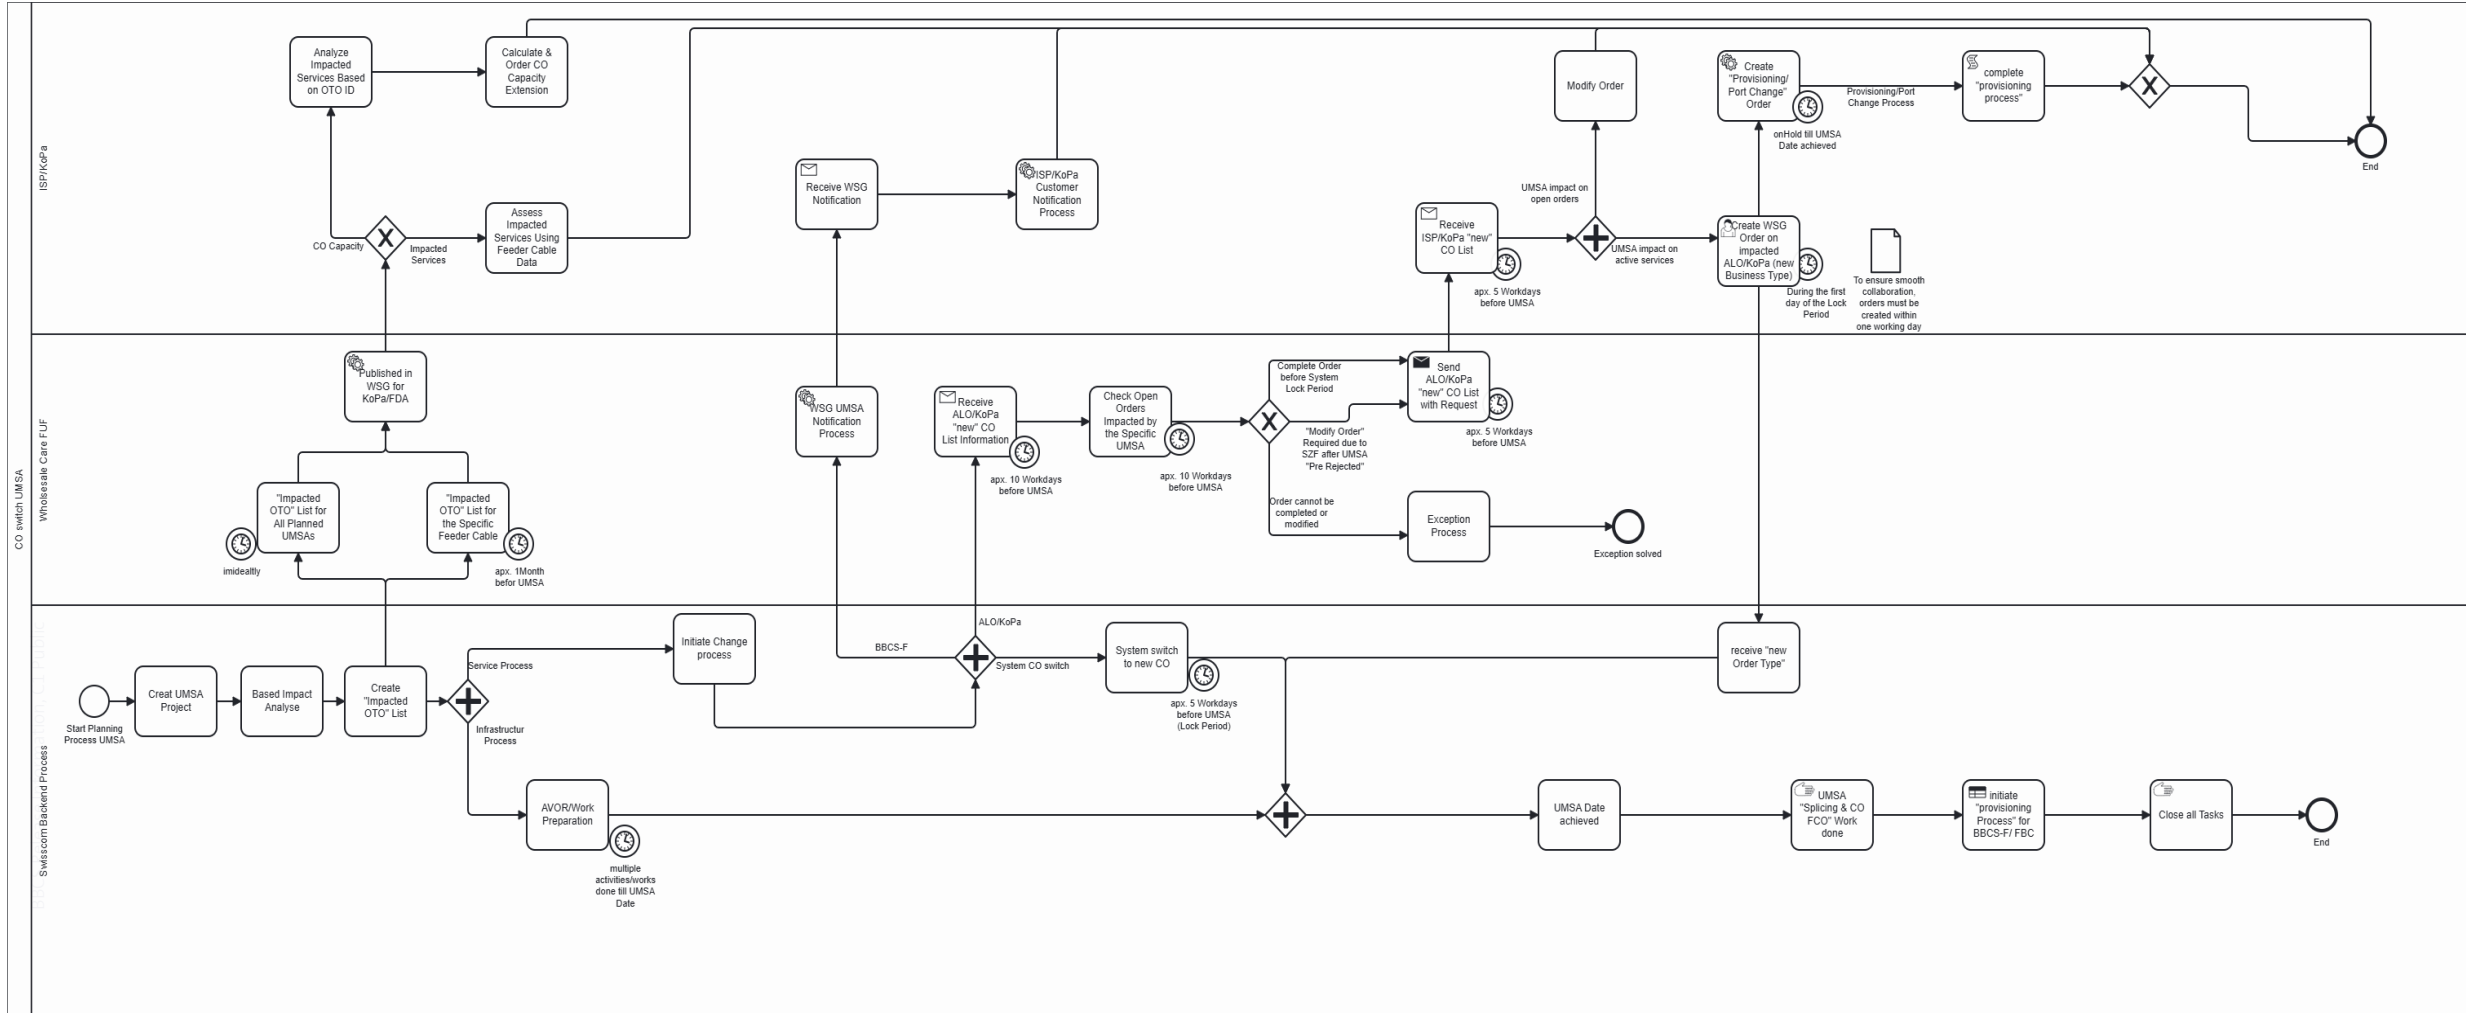

The new process will be used for the first time for the CO Move Wassergasse "750WAS" to St. Gallen Lachen "750SGL". The migration will start in July 2026 and run in phases (feeder cable by feeder cable) until 2029.
