WARP Port Available	-
Swisscom Ready	Yes

BBCS Service Fulfilment

FIO Appointment Booking

4

Current State

- Appointments on fiber inhouse orders (FIO) are negotiated directly between installation partner and end user. Sometimes this leads into longer delays.

New State

- For fiber inhouse orders (FIO) in Swisscom development areas the appointment booking for the installation partner **has to be done by the ISP** in the ordering process.
- Appointment booking is only possible if:
 1. Access is in a Swisscoms development area
 2. FirstInhouse = False
 3. Resources and availability of installation partner are available
- The booked appointment might be changed by the ISP as well as by the installation partner afterwards.

Fulfillment Time Slot

Index	Start Date/Time	End Time
1	07/05/2018 08:01	12:01
