1 Introduction

1.1 General Information

This document contains defined list of values for the WSG application which are used by the B2B Interfaces.

All list of values in the WSG are usually written in English. Please be aware that any element in any listofvalue text can be changed at any time without further notice.

1.2 ListOfValue Ranges

In general the following rules are applied in general:

LOV_IDs under 1000 are values related to copper- functionality (APV).

LOV_IDs under 3000 are values related to broadband functionality and general LOV's.

LOV_IDs under 5000 are values related to assurance (TT).

LOV_IDs under 6000 are values related to COPA functionality.

LOV_IDs under 8000 are values related to IPPool functionality
