1 Introduction

1.1 General Information

This document contains all message identifications for the WSG application.

All messages in the WSG are usually written in English. Please be aware that any message text can be changed at any time without further notice.

1.2 Reference to other WSG documents

In other WSG documentation you will find also codes and messages:

- Some "Reason Codes" returned by the WSG application corresponds to one of the "Message Ids" described in this document.
- Rejection messages and codes from the fulfilment will not be returned in the acknowledge file.
- Rejection-Codes: in case of an order rejection the rejection code is stored in the attribute 'RESPONSE'.

1.3 Message Ranges

MESSAGE_IDs under 100 are used as technical messages for interfaces.

MESSAGE_IDs above 100 are used as functional messages.

MESSAGE_IDs above 500 are used as system messages.

MESSAGE_IDs in the range A00 to P99 and S00 to U99 are used as fulfilment or assurance messages.

MESSAGE_IDs in the range R00 to RZZ are used for WSG internal purposes and should not appear in the context of interactions with WSG interfaces. They are listed here for completeness.

MESSAGE_IDs in the range Q00 to Q99 are used as qualification results.

MESSAGE_IDs in the range V00 to V99 are used as "APV manager" messages.

MESSAGE_IDs (rejection codes) in the range 1000 to 5300 do not exist anymore in WSG.

1.4 Remarks to the list of Messages

The messages shown below may appear in the context of interactions with WSG interfaces (web service and graphical).

If an error message is marked as **retryable**, a resubmit of the same request at a later time might produce a successful response. The maximum number of retries and the retry interval must be carefully chosen. Retry intervals under 1 minute should be omitted.

2 List of WSG Messages

2.1 List of Error Messages

Message Id	Obsolete	Retriable	Message Text User Defined
000			Transaction OK
001			Non-existing ISP_ID in filename
002			ISP_ID in filename not related to the sending ISP
003			Batch number XXXXXX in filename is greater than expected
004			Batch number XXXXXX in filename has already been received
005			First record in file is not a valid header record
006			ISP_ID in filename does not match the ISP_ID in header
007			Incorrect number of records in file
008			Filename in header does not match actual filename
009			Last record is not a valid trailer record
010			MD5 checksum in trailer does not match calculated checksum
011			Filename length not correct
012			Too many records in file (system_parameter)
013			Number of fields in one of the records not correct
014			XML schema validation error
015			XML file rejected because of duplicate correlationId
016			XML file too big.
020			Schema version not supported
099		X	Unknown System Error
101			ENTERED, Workorder has been created
102			HOLDING, Workorder has set on hold
103			PRE_REJECTED, Workorder has been pre rejected
104			CHECKED, Workorder has been checked
105			PROCESSING, Workorder is in processing
106			ACCEPTED, Workorder has been accepted
107			EXECUTED, Work order has been executed
108			DELAYED, Work order has been delayed
109			CANCEL_PENDING, Work order has been set to cancel pending
110			REJECTED, Work order has been rejected
111			CANCELED, Work order has been cancelled
112			TEMP, Temporary workorder has been executed
113			User class is missing
114			Subservice is missing
115			User group is missing
116			Access denied, you are not allowed to execute this function
117			Plan Date analog (ADSL or VDSL), invalid Format
118			Plan Date invalid, must be > than current date - 'Max days activation' in workingdays
119			Invalid creation type or invalid creation type / contr_ele combination
120			DN is missing

121			Invalid DN number
122			A pending work order already exists for this DN
123			Work order does not exists
124			Work order must be in the state CHECKED for OMS processing
125			No contracted services found
126			Termination Date is missing
127			Termination Date, invalid Format
128			Termination Date, invalid Format
129			Termination Date must be > Plan Date
130			ISP ID is missing
131			ISP ID is not active yet
132			ISP ID is no longer active
133			BB Type is missing
134			BB Type is invalid
135			BB Type is not contracted
136			BB Speed is missing
137			BB Speed is invalid
138			BB Speed is not contracted
139			BB Quality is missing
140			BB Quality is invalid
141			BB Quality is not contracted
142			Maint Contract is missing
143			Maint Contract is invalid
144			Maint Contract is not contracted
145			Modem Owner is missing
146			Modem Owner is invalid
147			Modem Owner is not contracted
148		X	Service qualification out of service or an error was occurred
149			Service qualification no available speeds
150			Service qualification requested speed is not available
151			Order Nr is missing
152			Order Detail not found
153			ISP has no speeds contracted
154			Your selection exceeds the maximum of allowed rows, Please make your selection more selective.
155			Invalid ISP_ID format, must be a number with length = 6
156			ISP_NAME ISP_PHONE, ISP_STREET, ISP_STREET_NR, ISP_POSTAL_CODE, ISP_CITY or DEBUG_LEVEL_WSG is missing or invalid
157			ISP_FAX and/or ISP_MAIL is missing.
158			Invalid ISP language
159			Start_date is missing or has a wrong format
160			Start_time is missing or has a wrong format
161			End_date has a wrong format
162			End_time has a wrong format

163			End_date/time must be filled both or none
164			Invalid contract type
165			Mailflag is missing or has a wrong value, must be Y or N
166			ISP must be 999999 as Swisscom user by get service status
167			MESSAGE_ORIGIN, MESSAGE_TYPE, MESSAGE_FUNCTION or MESSAGE_REF is missing
168			MESSAGE_ORIGIN does not exist
169			MESSAGE_TYPE does not exist
170			RESPONSE_ORIGIN, RESPONSE_CODE, RESPONSE_SC_FROM or RESPONSE_SC_TO is missing
171			RESPONSE_ORDER_STATE FROM does not exist
172			RESPONSE_ORDER_STATE TO does not exist
173			HOLD_DAYS is missing or invalid value, must be > 0
174			DUE_DAYS is missing or invalid value, must be > = 0
175			BB_PSD, BB_PSD_OLD or BB_PSD_NEW has a wrong format
176			BB_ASAM_OLD or BB_ASAM_NEW is missing
177			MAX_ROWS_GUI or MAX_ROWS_FTP is missing or invalid, must be > 0
178			WSG_PROCESS_REPEAT_MIN is missing or invalid, must be > 0
179			SCAN_WSG, ONLY_ONE_DLO or DEBUG_SQL is missing or invalid, must be Y or N
180			Field APV MESSAGE_TYPE wrong format
181			Field APV MESSAGE_REF wrong format
182			Field ISP_NAME wrong format
183			Field MESSAGE_TEXT too long
184			Field RESPONSE_ORIGIN wrong format
185			Field RESPONSE_CODE wrong format
186			Field RESPONSE_COMMENT wrong format
187			Field DN_OFFICE wrong format
188			Field BB_TYPE wrong format
189			Field BB_SPEED wrong format
190			Field BB_QUALITY wrong format
191			Field BB_ACCESS wrong format
192			Field BB_PORT_NR wrong format
193			Field COMMENT wrong format
194			Field HISTORY_FLAG wrong format
195			Field NO_HISTORY_RECORDS wrong format
196			Field ORDER_TYPE wrong format
197			Field ORDER_STATE wrong format
198			Field BB_TYPE wrong format
199			Field BB_SPEED wrong format
200			USER_CLASS or SUBSERV is missing
201			Text entry not found
202			Message function entry not found
203			ISP does not belong to this work_order
204			Work_order is in the wrong state for this action

205			ISP does not belong to this work_order
206			Message assignment entry not found
207			Response state change entry not found
208			Invalid DN OFFICE, wrong format or too long
209			Order state is missing
210			Start_date has invalid format
211			Duration must be > 0
212			Info_text is missing
213			ACTIVE is invalid must be Y or N
214			AFFECT EXISTING is invalid must be Y or N
215			ORDER_ID is invalid
216			Date-range is overlapping with existing entries.
217			TECH_PROB_ID is invalid
218			TECH_PROB_ID is missing
219			Field DN_TYPE wrong format
220			Field BB_QUALITY wrong format
221			Field MAINT_CONTRACT wrong format
222			Field MODEM_OWNER wrong format
223			Field CREATION_TYPE wrong format
224			Field COMMENT wrong format
225			The subscriber line does not support the contracted speed
226			DN number to can only be filled when DN number from is filled
227			Legal text entry is missing
228			Order type does not exists
229			Order state does not exists
230			ISP cannot be deleted, it still has work-orders, tickets, connectivity-data or SLA's
231			At least one field must be filled out
232			Invalid OMS_ORDER_ID format
233			OMS_ORDER_ID or ORDER_REF must be filled in
234			OMS_ORDER_ID already exist for another order_id
235			Invalid DN_TYPE
236			Invalid NEW_CONNECTION
237			Invalid BB_TYPE_ACTION
238			Invalid BB_QOS_ACTION
239			Invalid BB_ACCESS
240			Invalid BB_QUALITY
241			Invalid BB_SPEED
242			Invalid BB_SERV_STOCK
243			Invalid BB_UPDATE_SERVICE
244			Invalid BB_SPEED_ACTION
245			Invalid BB_TYPE
246			Field BB_ISP_DOM_NAME invalid length.
247			Field BB_MUT_ISP_DOM_NAME invalid length.
248			Field CUST_BUSINESS_NR invalid length.

249			Field VALID_ACTI_DATE invalid length.
250			Field ACTI_DATE invalid length.
251			Field VALID_DISCON_DATE invalid length.
252			Field DISCON_DATE invalid length.
253			Invalid USER_CODE.
254			Invalid BUSINESS_PROCESS_NR.
255			ORDER_STATE_T0 is missing
256			ORDER_STATE_T0 is invalid
257			ORDER_STATE_FROM is missing
258			ORDER_STATE_FROM is invalid
259			ORDER cannot be changed to this state
260			ORDER is not in this state anymore
261			ORDER in end state cannot be changed anymore
262			ORDER cannot be changed to the same state
263			DN OFFICE is missing
264			ISP_TYPE customer cannot be changed, referenced by a test account
265			DN_PLAN_NUMBER_ANALOG (ADSL or VDSL) is invalid
266			DN_PLAN_NUMBER_DIGITAL (ADSL or VDSL) is invalid
267			DN_THRESHOLD_ANALOG (ADSL or VDSL) is invalid
268			DN_THRESHOLD_DIGITAL (ADSL or VDSL) is invalid
269			Plan Date digital (ADSL or VDSL), invalid Format
270			RESPONSE_ORIGIN or RESPONSE_CODE is missing
271			RESPONSE_ORIGIN, RESPONSE_CODE already exists in the database
272			Can not be deleted, is referenced in table RESPONSE_STATE_CHANGE
273			RESPONSE_ORIGIN, RESPONSE_CODE does not exists in the database
274			Field EXT_REF invalid length
275			Invalid CREATION TYPE, wrong format or too long
276			Automatic created order to configure BB service
277			Invalid DN (Requested) number
278			Field PROCESS_FLOW_NR is missing
279			Field DN OFFICE invalid length
280			Field WITH_TITLE_LINE invalid length
281			Field PROCESS_FLOW_NR invalid length
282			Invalid BACK_MESSAGE_ID
283			ALARM_MAIL_ADRESS is missing
284			BB_PSD_CLASS, BB_PSD_CLASS_OLD or BB_PSD_CLASS_NEW has a wrong format
285			SESSION_TYPE, SESSION_TYPE_OLD or SESSION_TYPE_NEW has a wrong format
286			The subscriber line does not support the contracted speed. Supported are:
287			Version number Field is invalid
288			Field TT_ID_WSG is invalid
289			Field TT_ID_SYS is invalid
290			Field TT_STATUS is invalid
291			Field TT_SOLVED_DATETIME is invalid
292			No Ticket with this ID does exist

293			Trouble Ticket must be in state CHECKED for TT system processing
294			Trouble Ticket is in the wrong state for modification
295			Ticket State From is missing or invalid
296			Ticket State To is missing or invalid
297			Ticket cannot be changed to the same state
298			Ticket is not in this state anymore
299			ISP_MAIL, STATE_CHNG_MAIL, APV_MSG_MAIL, KAM_MAIL or SPECIAL_NOTIFICATION_MAIL is missing
300			SCAN_WSG, PGP, PGP_REPORT or PGP_VOICE is missing
301			Trouble Ticket rejected. See Response Comment for more details.
302			Trouble Ticket Problem occurrence-date is missing
303			Trouble Ticket Problem occurrence-date is invalid
304			Trouble Ticket Problem occurrence-date is later than now
305			Trouble Ticket voice access is missing
306			Trouble Ticket login isp is missing
307			Trouble Ticket last login-date is invalid
308			TT_CLEARANCE is missing or invalid
309			Complain speed is missing
310			ISP Ticket Reference is missing
311			ISP Phone Number is missing
312			BBCS connection type is missing
313			ASAM-name, DSLAM-type or Log Port Nr is missing
314			Equipment type has a wrong value
315			End-user name is missing
316			End-user phone is missing
317			Problem description is missing
318			DSLAM_TYPE, DSLAM_TYPE_OLD or DSLAM_TYPE_NEW has a wrong format
319			LNS can only be assigned once per domain
320			Domain name is missing
321			Routename is missing
322			IP-Address is missing
323			STE-Nr is missing
324			STE-Room is missing
325			STE-Location is missing
326			STE-Bandwidth is missing
327			LNS-Number is missing
328			SAP-Number is missing
329			SAP-Interface is missing
330			SAP_TRANSFER_INTERFACE_TYP is missing
331			Contact-name is missing
332			This Domain-Number does already exist
333			Invalid BB_SPEED_NEW
334			Invalid BS/K98
335			DN_UPD_EXEC is invalid, it has to be Y or N

336			ISP is locked
337			SLAS_NR is missing
338			Customer Class is missing
339			Exception Priority is missing
340			Level of Support is missing
341			DDI_ALLOWED is invalid, it has to be Y or N
342			CHANGE_ISP_ALLOWED is invalid, it has to be Y or N
343			Description is missing
344			No matching SLA found
345			Customer Class is invalid
346			Exception Priority is invalid
347			Level of Support is invalid
348			Customer Class is not contracted
349			Exception Priority is not contracted
350			Level of Support is not contracted
351			VALID_FROM date is missing
352			VALID_FROM date invalid, must be >= today
353			VALID_TO date invalid, must be > than VALID_FROM date
354			VALID_FROM date must be > than VALID_FROM dates in all other SLA's for this customer class
355			VALID_TO date invalid, must be >= today for new SLA's
356			VALID_TO date invalid, must be >= (today - 1 day) for SLA changes
357			VALID_TO date must be entered since this SLA is not the most recent
358			VALID_TO date must be < than the VALID_FROM date of the following SLA
359			Expired SLA's can not be modified
360			VALID_FROM date in the past can not be modified
361			There already exists another SLA with the same VALID_FROM date
362			Proposed VALID_FROM date conflicts with VALID_TO date of the previous SLA (unresolvable)
363			Proposed VALID_FROM date conflicts with VALID_TO date of the previous SLA (resolvable)
364			Field MUT_CODE wrong format
365			Only SLA's with VALID_FROM date in the future can be deleted
366			Plan Date is too far in the future
367			Only Contract Element 0 (=None) is allowed
368			First state of trouble-ticket must be ENTERED
369			Field ISP_ID_REQ wrong format
370			Field ISP_NAME_REQ wrong format
371			Field RESPONSE_CODE2 wrong format
372			Field RESPONSE_CODE3 wrong format
373			Field RESPONSE_CODE4 wrong format
374			Field APV_RELEASE wrong format
375			Field VN wrong format
376			Field BB_UP_BG_NR wrong format

377			Field BB_UP_SWITCHING_PLACE_NR wrong format
378			Field BB_UP_KIND_OF_CONTACT wrong format
379			Field BB_UP_CLIPBOARD_NR wrong format
380			Field STNR_DDI wrong format
381			Field SUBSCRIBER_CATEGORY wrong format
382			ISP change is prevented by SLA
383			DDI is prevented by SLA
384			VN is missing
385			DN_TYPE is missing
386			ISP_NAME is missing
387			BB_UP_BG_NR is missing
388			BB_UP_SWITCHING_PLACE_NR is missing
389			BB_UP_KIND_OF_CONTACT is missing
390			BB_UP_CLIPBOARD_NR is missing
391			STNR_DDI is missing
392			VDSL already existing, only modify or disconnect allowed
393			No VDSL existing, use Create instead
394			Technology change from <BB_TYPE_old> to <BB_TYPE_new> not yet supported
395			Modify SDSL to customer class PRIVATE not supported
396			This Disconnect is not supported. Reduce Real Time first and then disconnect again
397			ISP_CHANGE is not possible with this Service Mix, ask CUC to Reduce TV or Real Time
398			ISP_CHANGE is not possible
399			Service already active
400			Add Real Time only possible on session type DHCP, first modify to contract element 13, 14 or 18
401			No Real Time active. Reduce not supported.
402			Requested base contract element is only possible in combination with an additional service (TV or Real Time)
403			ADD-Service not allowed for this base contract element. Use appropriate DHCP contract element (by executing a MODIFY)
404			no ull access found, Disconnect not possible
405			TT_SYSTEM_PARAMETER TT_TIMEOUT_REPEAT or TT_REPEAT_PERIOD are invalid
406			Invalid BB_FF_DATE
407			Invalid BB_CONFIG_DATE
408			Send Info Mail is missing or invalid, must be Y or N.
409			Donor and Receiving ISP may not be the same
410			The Get service status repeat timeout is invalid. Must be > 0 (or 0 for switching off)
411			The Get service status repeat interval is invalid. Must be >= 0
412			ORDER_TYPE is missing or invalid
413			Get XdslPort failed
414			Modification of VALID_FROM date leads to an SLA gap (period with no valid SLA)
415			Modification of VALID_TO date leads to an SLA gap (period with no valid SLA)
416			Modification of VALID_FROM and VALID_TO dates lead to SLA gaps (periods with no valid SLA)
417			Last ISP-Change is less than the permitted days

418		X	Inconsistent business line data for STNR_DDI found, please resubmit request
419		X	Get Business Line Identity failed for the following reason:
420			This SAP-Number does already exist
421			This LNS-Number does already exist
422			This STE-Number does already exist
423			This SLA Standard Criteria Number does already exist
424			Field BB_OK_STATUS wrong format
425			DN OFFICE does not exist
426			START_DATE must be after yesterday
427			Delay Timer is invalid. Must be > 0 (or 0 for switching off)
428			Invalid TT_LINE_STATE_ID.
429			Delay Timer Enable/Disable is missing or invalid, must be Y or N.
430			IS_COMPLETED is missing or invalid, must be Y or N.
431			This DN changes to another ISP
432			BB_UP_KIND_OF_CONTACT is invalid
433			Complain speed is invalid
434			DN_OFFICE is invalid
435			Trouble Ticket voice access is invalid: Yes=1, No=2.
436			Trouble Ticket login isp is invalid: Yes=1, No=2
437			Invalid Time Frame selection
438			Sched_Type is missing
439			Sched_Type, Sched_day or Sched_Slot is missing
440			Invalid Sched_Type
441			ACTIVE, WHOLE_DAY, ONE_FILE_PER_RUN and MAX_ORDERS must be filled
442			Invalid Sched_Day
443			ACTIV ,ONE_FILE_PER_RUN and WHOLE_DAY must be Y or N
444			Start- and End-Time-Numbers are invalid
445			Start- and End-Time-Numbers are impossible
446			Type, Day or Slot are missing
447			Type is missing
448			Scan or Sort_Order is missing
449			SCAN must be Y or N
450			Schedule already exists for the given day and slot
451			Type is invalid
452			Field SYNCH_WITH_VOICE wrong format
453			Values required for a 12 month period starting this month (0 is valid)
454			Max, Middle and Low cannot be active at the same time
455			REG_NUMBER is missing or invalid
456			Sum of factors is bigger than 1

C99			Unable to determine Effective Speed
CB0			No BEP available
CB1			The Building is not yet equipped with the required infrastructure. Ordering is not possible
CB2			The BEP is planned (planned date is in the future)

CB3			The BEP is ready, but the BEP availability date is in the future
CB4			OTO (socket) is planned: getCustomerZoneContract() failed: Can not check PhysicalOwnerDrop
CB5			OTO (socket) is planned and PhysicalOwnerDrop is not "F"
CB6			OTO is planned and PhysicalOwnershipInHouse=400802 (Landlord)
CB7			Line is not ready. Synch Order is not possible
CB8			In house installation is not allowed
CB9			Line is not ready or suitable for building a fiber cross connection
CBA			In house installation by Swisscom is not possible.
CBB			It is not possible to create ALO on this line due to technical restrictions.
CBC			Qualified Plug has no active ALO service
CBD			Qualified Plug is not used by another ISP
CBE			A SAP with patch type 2 is connected, but FAD response returns patchType PATCHTYPE !
CBF			Move cross connection from patch type 2 is not allowed!
CBG			Connected Service Access Point (SAP) found for patch type PATCHTYPE . But fiber is not active in OH/CIH!
CBH			Plug PLUGNR: Line is used by ISP ISPID (BBCS-F)
CBI			Plug PLUGNR: Line is used by ISP ISPID
CBJ			Plug PLUGNR: Line is used by Swisscom (FBC)
CBK			Plug PLUGNR: State is ALO_READY, but the line is not known in the commercial inventory
CBL			Plug PLUGNR: Line is used by ISP ISPID (ALO)
CBM			Plug PLUGNR: Line is used by a Swisscom customer (L1 customer solution)
CBN			Plug PLUGNR: Line is used by a Swisscom customer
CBO			Plug PLUGNR: Line is used by a cooperation partner
CBP			The BEP is planned, in house installation may be possible
CBQ			OTO (socket) is planned
CBR			Line is already contracted (REMARK)
CBS			Line is already used
CBT			Line is not ready or suitable for building a fiber cross connection (only in house installation)
CBU			Not allowed Cross Connections are removed from the qualification result (SynchOrder)
CBV			Plug PLUGNR is used by a CoPa (Fiber.Ready-CoPa)
CBW			Plug PLUGNR is used for ALO (Fiber.Ready-ALO)
CBX			Plug PLUGNR is used for a L1-Solution (Fiber.Ready-LSG)
CBY			Plug PLUGNR has State BUSINESSSTATE
CBZ			No fiber line found
CC0			FiberLineBusinessState is not set
CC1			Plug is already used by Swisscom
CC2			BEP is not ready
CC4			BEP is planned (date is in the past)
CC5			BEP is planned (planned date is not known)
CC6			OTO is not ready

CC7			The equipment in the central office is not yet ready. The assembly is planned for DATE
CC8			The equipment in the central office is not yet ready. The assembly is planned for DATE. Please contact service desk because the planned date lies in the past!
CC9			OTO is planned
CCA			The RightOfUse (L1ConnectionProviderId=L1ConnectionProviderId) of the Plug is not suitable for ALO
CCB			The RightOfUse of the Plug is not suitable for ALO
CCC			Line is already contracted (used by Swisscom)
CCD			The equipment in the central office is not yet ready.
CCE			FiberLineBusinessState is not suitable for create FBC
CCF			No active line found
CCG			the service of the active line is not ALO or BBCS-F
CCH			the service of the active line is not ALO
CCI			the service of the active line is used by the requesting ISP
CCJ			the active line use the same service as requested
CCK			the service of the active line is used by another ISP
CCL			Plug PLUGNR is active (BBCS-F). Used by ISP ISPID
CCM			Plug PLUGNR is active (BBCS-F). Used by another ISP
CCN			Plug PLUGNR is active (BBCS-F). Used by an ISP
CCO			Plug PLUGNR is active (FBC). Used by Swisscom
CCP			Plug PLUGNR is used for a L1-Provider service
CD0			Quali is already used by another basis order
CD1			Fulfillment SLA of referenced qualification does not match
CI0			Either Socket_id or Cooperation_id is allowed, but not both.
CI1			There is an open incident for this OTO.
CI2			There is an open order for this OTO.
CI3			There is an open incident for this NSN/layer1 connection ID.
CI4			There is an open order for this NSN/layer1 connection ID.
CI5			Either OTO or LAYER1 is allowed, not both.
CI6			There is an open incident for this Partner Label.
CI7			There is an open order for this Partner Label.
CI8			Change Quali/Szf in this context not allowed
CI9			Order is in the wrong state for Change Quali/Szf
CIA			Wrong Access Type for Access Speed modification
CIB			There is already an open Order for Access Speed modification for this DN
CIC			There is a blocking Order for this DN
CID			at least one value must be different from GetSrvStatus
CIE			RETURN_SPEED_AT_NOK must be Y or N
CIF			Port reservation not possible due to wrong network type
CIG			Suppress WFM is not allowed in this context
CIH			Linktest is not allowed in this context
CII			Reconfig line aborted because of blocking order for same line.
CIJ			Entry rejected. too old and no order yet created.
CIK			LOCAL_EVENT_ID is missing or invalid.

CIL		TRY_DIGITAL_PORT_ENABLED is missing or invalid, must be Y or N.
CIM		TECHNOLOGY_TYPE cannot be changed
CIN		LOCATION_ID must be provided
CIO		ENTRY_USER_NAME must be provided
CIP		ENTRY_DATETIME must be provided
CIQ		invalid selection
CIR		PREDECESSOR_ENTITY_ID must be provided
CIS		PREDECESSOR_ENTITY_ID is invalid
CIT		LLID must be provided
CIU		Either company name or last name must be provided but not both
CIV		Reconfig Line for this product is not allowed.
CIW		LOOK_UP_PREDECESSORS_ENABLED is missing or invalid, must be Y or N.
CIX		CREATE_WITH_PRED_ENABLED is missing or invalid, must be Y or N.
CIY		Pending CREATE order already exists for this line.
CIZ		Cross check failed. Needs to be analyzed.
CJ0		Pending PAAO_SYNCH entry for this NSN already exists.
CJ1		PAAO_SYNCH: Create order reached end state.
CJ2		PAAO_SYNCH: Create order has been modified or reset.
CJ3		PAAO_SYNCH: Synchronization did not work.
CJ4		Orders on a Standby DBC of a TDMonly access are not allowed.
CJ5		Orders on the SecondNumber of a TDM access are not allowed.
CJ6		Service Status of the Predecessor not available.
CJ7		A last name is required with a first name
CJ8		A last or company name is required with a phone number
CJ9		ISP Change is not possible, please use the normal creation process
CJA		Please resubmit order with CreationType = Synchronisation with Voice
C01		There already exists an active entry for this OTO ID in the inventory.
C02		Inhouse build responsible is F - Fremd (Cooperation Partner), an inhouse installation by Swisscom cannot be requested
C03		This is not the same OTO as in the Qualification.
C04		Fiber Inhouse Installation is not necessary or not possible.
C05		Fiber Cross Connection is not possible.
C06		This timeslot already exists.
C07		OHDF Rack has a length of more than 10 characters.
C08		OHDF Slot is invalid, must be a number.
C09		OHDF Port is invalid, must be a number.
COA		There is no Quali available for this QualiNbr PlugNr.
COB		This available crossconnection entry already exists for this QualiNbr PlugNr Patchtype.
COC		This available crossconnection entry does not exist for this QualiNbr PlugNr Patchtype.
COE		Layer1 Connection ID is missing or invalid.
COF		CFS_INSTANCE_ID is too long.
COG		Requested patch type is not allowed

COH			numberOfAvailableConnections is to low for this Patch Type.
COI			SAP not found or connector_state wrong.
COJ			No Plug Info is delivered.
COK			This fiberline is already activated.
COL			OHDF_RACK is invalid.
COM			CWD in the past is not allowed
CON			CWD too far in the future is not allowed
COO			CWD before the planned date is not allowed
COP			ISP from Quali and Create mismatch.
COQ			Express is not allowed with planned Quali.
COR			FIO has to be ordered.
COS			No Timeslots available.
COT			CWD does not match with fulfillmentTimeSlotQualifIndex
COU			Appointment not allowed in new qualification
COV			Contract Element, BbType or BbDeviceLocation in new qualification does not match with previous qualification
COW		X	CWD is too close, CWD must be >= next working day.
COX			This is already fibre.ready or alo.ready.
COY			Inhouse build responsible is Swisscom, a Inhouse Installation must be requested
COZ			ACCESS_PROFILE_TYPE is invalid.
CQ1		X	Line is used by a cooperation partner (Result from physical inventory).
CQ2		X	Line is already contracted (Result from physical inventory).
CQ3		X	Line is already contracted (Result from commercial inventory).
CQ4			Lodger or Line not known in the physical inventory.
CQ5		X	The central office is not known.
CQ6			No available Service Access Point known.
CQ7		X	No partner contract known.
CQ8		X	No patch type allowed.
CQ9		X	No free connections found.
CQA		X	Calculation of free connections is not possible.
CQB		X	Line is not ready.
CQC			Fiber Rent is not possible. The Fiber is in the wrong business state.
CQD			DUAL_FEEDER_PLUG already exists
CQE			DUAL_FEEDER_PLUG does not exist
CQF			Line is not suitable for Fiber Rental
CQG			In house installation is required. SlaExpress is not possible.
CQH			Invalid Filter Type
CQI			Fiber rental request is suppressed for this plug
CQJ			No active service found
CQK			It is not possible to identify the connected plug
CQL			Connected Plug not found
CQM			Same Plug Flag is invalid
CQN			OTO (socket) is planned and BEP is not ready
CQO			OTO (socket) is planned and PhysicalOwnerDrop is not 'F'

CQP			Fulfillment Time Slot lies in the past. Please requalify and resend the order again.
CQQ			The BEP is planned
CQR			FiberLineBusinessState is Fiber.Ready-ALO but the line is not registered in the commercial inventory
CT0			Customer Contact 1 is mandatory with last name, language and communication channel.
CT1			Change Ticket not found
CT2			Ticket_ID and Summary must be provided.
CT3			Ticket_ID and Summary must be provided.
CT4			There is already an open change-ticket for this NSN.
CT5			DSLAM Port too long (max. 20 characters)
CT6			Either NSN or DSLAM must be provided.
CT7			Exchange Date must be provided.
CT8			Exchange Type is empty or invalid.
CT9			Reminder process is empty or invalid.
CTA			Customer Contact 1 contains invalid values.
CTB			Customer Contact 2 is incomplete. If provided, last name, language and communication channel are mandatory.
CTC			Customer Contact 2 contains invalid values.
CTD			Response Type is empty.
CTE			CT state ITSM must be provided.
CTF			This is not a valid CT-state-change.
CTG			There is already an open change-ticket for this DSLAM.
CTH			NSN is not allowed to modify.
CTI			DSLAM_NAME/DLSMA_TYPE are not allowed to modify.
CTJ			Cancel not possible/ successful.
CTK			Modify-Pending not possible/ successful.
CTL			This type of Reply is not allowed anymore.
CTM			With Reminder Process = 1 Customer Contact 2 is mandatory.
CTN			With Reminder Process = 2 Customer Contact 2 is not allowed.
CTO			Problem with reset to before modify-pending.
D00			Unable to determine Service Speed
D01			Unable to calculate Access Speed
D02			Termination and/or Session Type missing
D03			Unable to determine Service Type and/or Rating for Service Speed
D04			ISP order has been cancelled/rejected
D05			Try to change the order state of the generated ISP invisible virtual order (Legacy order will follow)
D06			RO_NR has a length of more than 17 characters
D07			PHYSICAL_PORT_ID_BOOKED has a length of more than 20 characters
D08			APPO_ID has a length of more than 10 characters
D09			CONTACT_PERSON has a length of more than 60 characters
D10			TEL_CONTACT_PERSON has a length of more than 15 characters
D11			ULL_PORT_NR has a length of more than 15 characters
D12			FORCED_PORT_CHANGE has a length of more than 1 character

D13			TERMINATION_OLD is invalid
D14			TERMINATION_NEW is invalid
D15			PHONE_NUMBER has a length other than 10 characters
D16			Customer order is closed and archived
D17			Customer order is already being processed and therefore cancellation is no longer possible
D18			Customer order has been cancelled
D19			Order not found or is in the wrong state for this action
D20			New Loop is invalid
D21			SPM_LOCATION_REQUESTED is invalid
D22			DEVICE_LOCATION_REQUESTED has wrong format
D23			SF_SLA_ID must be entered if Fulfillment Wish Date is specified
D24			Line State is invalid
D25			Unable to determine POOL_TYPE
D26			SPEED_PROFILE_NR_REQ conflicts with QUALIF_NR/ QUALIF_INDEX
D27			the actual service speed is not available for the new BB_Type, you have to perform a SRV_CHANGE order to specify the desired service speed
D28			This order cannot be modified with classical file transfer (use XML instead)
D29			Reservation Date is missing or invalid
D30			Needs TV is invalid
D31		X	Port reservation backend error
D32			LL_ID is missing
D33		X	Pool Type backend error
D34			Not selected for migration
D35			Cancelled due to order migration
D36			Reset due to order migration (will proceed shortly)
D37			Invalid BB_TYPE_NEW
D38			No upgrooming for Real Time only
D39			Port reservation data not available
D40			Missing or invalid correlationId
D41			Automatically created DISC for access without services
D42			Contract Element Id is not valid for DN_VN_NSN
D43			DN-Type and Basis-CE mismatch
D44			Invalid RO_NR
D45			CUSTOMER_ORDER_LIFETIME_DAYS is missing or invalid
D46			SUPPRESS_AUTO_DISC is missing or invalid
D47			AUTO_DISC_DAYS is missing or invalid
D48			SRV_ADD without SA_SLA detected
D49			SRV_ADD without SF_SLA detected
D50			SRV_REDUCE without SA_SLA detected
D51			Planned date is invalid, must be in the future
D52			Invalid ACCESS_ONLY_ORDER_TYPE must be wait or released
D53			ACCESS_ONLY_ORDER does not exists
D54			Automatically created order due to port relocation

D55			This WFM_STATE_CODE is invalid
D56			This COPA_ID_DROP_OWNER is invalid
D57			This OUT OF SLA REASON is invalid
D58			LINE_STATE_PORT_N_CONV_ON is missing or invalid, must be Y or N
D59			LINE_STATE_PORT_N_NA_DELIM is missing
D60			This WORKINFO CODE is invalid
D61			TIMESLOT > 15 is not allowed because of Performance.
D62			No upload file defined
D63			Invalid column name
D64			Invalid BB_LEVEL_OF_SUP_SERV
D65			Invalid EXCEPTION_OWNER
D66			Order-Id or ADR-Type is missing or invalid
D67			This ADR-Type already exists
D68			SERVICE_STATUS_RETRY_INTERVAL is missing or invalid
D69			VOICE_STATUS_RETRY_INTERVAL is missing or invalid
D70			PORT_RESERV_RETRY_INTERVAL is missing or invalid
D71			LINE_QUALI_RETRY_INTERVAL is missing or invalid
D72			ASAM_RETRY_INTERVAL is missing or invalid
D73			SERVICE_STATUS_RETRY_LIMIT is missing or invalid
D74			VOICE_STATUS_RETRY_LIMIT is missing or invalid
D75			PORT_RESERV_RETRY_LIMIT is missing or invalid
D76			LINE_QUALI_RETRY_LIMIT is missing or invalid
D77			ASAM_RETRY_LIMIT is missing or invalid
D78			WMCMS is missing or invalid, must be Y or N
D79			Move port reservation data not available
D80			Cancel port reservation data not available
D81			No ADDITIONAL_FACILITY provided or invalid in Unity answer for GetServiceStatus: not possible to compute LinId and to proceed to Network-Analyzer query.
D82			PORT_NR provided in Unity answer for GetServiceStatus is invalid: not possible to compute LinId and to proceed to Network-Analyzer query.
D83			Traffic light cannot be determined. (result of xDSL-Info query is ambiguous).
D84		X	Max. # of xDSL-Info requests for the last 60 minutes reached. Please try again later.
D85			SUSPEND_APV_RETRY_INTERVAL is missing or invalid
D86			Either DN_VN_SN, an address or an MI1400 must be given
D87			Invalid MI1400, wrong format or too long
D88			Invalid comma-separated list of numeric values
D89		X	Installed Base temporary error
D90			Contact name is missing
D91			Contact phone is missing
D92			'PORT_NR provided in Unity answer for GetServiceStatus is invalid: not possible to complete the NA-Request due to data inconsistency. OR The DSLAM is actually not actively registered in NA, because during last discovery the DSLAM was not reachable.'
D93			No card is installed in the slot on the DSLAM.
D94			DSLAM is Unreachable or Down.

D95			Contact phone is invalid
D96			TT Error Category is invalid
D97			Valid for All Basic Contract Elements conflicts with valid for a specific Basis Contract Element
D98			LOV not found
D99			Automatically Cancelled, multiple Orders with same Qualification Nr. caused by IE Problem (see info text in FA/TAL Start page)
DB1			Not all mandatory parameters for DBC Create
DB2			Not all mandatory parameters for DBC Disconnect
DB3			The DBC-Rollout-Request is already in an end state
DB4			DBC Disconnect aborted because of existing line is not DBC
DB5			DBC Create aborted because of ALREADY EXISTING REQUEST
DB6			Cancel initiated by UnityDB
DB7			Queue entry is locked by backend listener
DB8			DBC Rebuild aborted because of available TestedNumber
DB9			DBC Rebuild aborted because of missing LLID or address
DBA			WSG System Parameter checkbox 'Process SEND requests to ISLK' is checked
DBB			First Way ISLK is not allowed for TDM
DBC			First Way ISLK is only allowed for ADSL and VDSL.
DBD			First Way ISLK is only allowed for SG_MM = 1
DBE			First Way ISLK is not allowed for Mig 1,3,19
DBF			Queue Message is already being processed.
DBG		X	Work Order has been modified by another process. Please retry.
DBH			Finalize arrived before completion of all OLI messages.
DC0			DBC Rebuild aborted because of port or copper shortage
DC1			This way not allowed for OSISynch
DC2			DBC Rebuild aborted because of site category.
E00			Field SPEED_VALUE_SHAPING_UP wrong format
E01			Field SPEED_VALUE_SHAPING_DOWN wrong format
E02			Number, address, llid or start point found, but service not possible (no speed available)

N77			This Lov is static, no update,delete or insert is allowed
N78			Splitter Port is too long
N79			Requested DSLAM_TYPE does not match with resulting DSLAM_TYPE
N80			Requested ADSL_EMU must be yes for this service mix
N81			Entry is obsolete
N82			DSLAM_TYPE is invalid

N83			INTERLEAVE_MODE_UNITY_DETER is missing or invalid, must be Y or N
N84			GET_SERVICE_STATUS_TO_BACKEND is missing or invalid, must be Y or N
N85			Transitfile record does not exists
N86			Filetype Id is missing
N87			Filesize is missing
N88			Filesize is missing
N89			PROKU_MAIL_ADRESS is missing
N90			Appointment Id differs from that of the qualification
N91			Appointment not valid
N92			ISP is not sa_sla_ouerrule enabled
N93			CPE mismatch
N94			pDATA is empty
N95			TT_XDSL_INFO_REQUIRED must be Y or N
N96			Conflicting DSLAM-Type restrictions prevent order fulfillment
N97			Start Change Profile failed
N98			DSLAM in migration
N99			History flag is not allowed for this query
NA0			NA failure type is missing.
NIR			Information Request ID is missing
NP0			BSR Function is missing.
NP1			BSR Function and Network Type Warp should not happen.
NP2			Invalid activation code.
NP3			Preorder in wrong state or belongs to another ISP.
NP4			For this activation code there exists already a TT.
NP5			Multiline qualified but there is no Space Shortage.
NP6			Port Swap partner orders have different 1st Way FULFILLMENT_PATH
NS0			Obsolete entry because of completed Disconnect order.
NS1			NO_SURF_AUTOPROFILE_ENABLED is disabled for this ISP.
NS2			Obsolete entry because of completed ISP driven service add order.
NS3			Obsolete entry because of active best effort service.
NS4			No surf service order has been created.
NT0			Preferred contact notification type is missing or invalid
NT1			Preferred contact notification number is longer than 20
NT2			B2B operation referenced by operationLogId not supported for Clarification Ticket creation
OC1			No Metadata found, Please load Metadata first
OC2			The record cannot be changed anymore because it was changed in the meantime
OC3			The temporary modify record does not exists anymore
OC4			Change log id is missing or invalid
OC5			FORM_NAME id is missing or invalid
OC6			Cancel ist not allowed anymore, APV Step P301010 has been allready received for this order
OC7			Cancel ist not allowed anymore, 2nd Way Order is in progress
OC8			Cancel request processed.

OC9			Request has been cancelled.
OCA			No pending port relocate found.
OCB			WO_COPA_ADR record does not exist
OCC			TT_COPA_INC record does not exist
OCD			WO_COPA_OTO_LABEL record does not exist
OCE			WO_FIO_ADR record does not exist
OCF			WO_LAYER1 record does not exist
OCG			TT_ACCESS record does not exist
OCH			WT_TICKET record does not exist
OT1			Not all values provided for insert OT_QUERY_FIELD.
OT2			These key values do not match for update OT_QUERY_FIELD.
OT3			Not all values are provided for querying OT_QUERY_FIELD.
PA0			Migrate PAA0 request aborted because of pending ISP driven order on same DN
PA1			Migrate PAA0 request aborted because of pending APV Voice event on same DN
PA2			Migrate PAA0 request aborted because of GetSrvStatus failed
PA3			Migrate PAA0 request aborted because of not TDM
PA4			Migrate PAA0 request aborted because of already migrated
PA5			Migrate PAA0 request aborted because of wrong DN_TYPE for migration
PA6			Migrate PAA0 request Request cancelled due to a Customer Order
PA7			Migrate PAA0 disabled
PA8			The Migrate PAA0 Request is already in an end state
PA9			This Migrate PAA0 Request is already exists
PAA			Not all mandatory parameters for a Migrate PAA0 request
PAB			There is broadband on this line
PAC			The provided PAA0_STATE is invalid for FA
PAD			PAA0 Synch Action must be provided
PAE			PAA0 Synch Order ID Create must be provided
PAF			PAA0 Synch ID is missing or invalid
PD1			The disconnection date of the previous service is too far in the future. Deactivation date = DATE
PD2			BusinessType=PRODUCT_CHANGE is not possible. The line is planned for disconnection. Deactivation date = DATE
PD3			The deactivation date of the previous service is further in the future than the customer wish date
PD4			Connected Plug found! Ordering is not possible with the current request parameters
PD5			BusinessType=ISP_CHANGE is not possible. The line is planned for disconnection. Deactivation date = DATE
PD6			BusinessType=PRODUCT_CHANGE is not possible. On this access a move is planned. Move date = DATE
PD7			BusinessType=PRODUCT_CHANGE is not possible. On this access an outporting is planned. Outporting date = DATE
PD8			BusinessType=PRODUCT_CHANGE is not possible. On this access a bundle change is planned. Mutation date = DATE
PN0			Invalid international phone format
P00			PreOrder only allowed for standalone and BBCS_F

P01			ISP is not allowed to use preOrder
P02			not fully developed and ISP only allowed to use preOrder when fully developed
P03			A preOrder for a line with a known predecessor is not allowed
P04			Kind of Creation = Preorder is not possible with Express Orders. Express Orders must be set to KoC = new
PR0			Last name is longer than the allowed 30 characters.
PR1			First name is longer than the allowed 30 characters.
PR2			Company Name is longer than the allowed 100 bytes.
PR3			Phone number is longer than the allowed 15 bytes.
Q51			The binding Id is not known
Q52			ReturnSpeedAtNok is only supported for the operation srvQualiByAddress, srvQualifyByStartPoint and srvQualifyByLocationId

2.2 List of Qualifications Messages

2.2.1 List of BBCS Qualification Messages

MessageID	BBCS_Result	Message_Text
Q00	ok	This telephone line is suitable for xDSL.

MessageID	BBCS_Result	Message_Text
Q01	ok_stao	This telephone line is suitable for xDSL.
Q02	nok	The telephone number is not known.
Q03	nok	The address is not known.
Q04	nok	The startpoint is not known.
Q05	nok	The llid is not known.
Q06	nok	The m1400 number is not known.
Q07	nok	A broadband connection is not possible due to a technical restriction.
Q08	nok	A telephone system with DDI (Direct Dialing In) has been identified. Please enter the billing number of the telephone line directly or refer to your Internet service provider for this information.
Q09	nok	Unfortunately this telephone line is not suitable for xDSL. We apologise for any inconvenience. An additional service is already running at the selected number. For further information and assistance, Please contact the network operator.
Q10	planned	The associated local exchange is not yet equipped with the required infrastructure. The upgrade is planned.
Q10	planned	The associated local exchange is not yet equipped with the required infrastructure. The upgrade is scheduled.
Q11	nok	The associated local exchange is not yet equipped with the required infrastructure.
Q12	nok	The quality of the subscriber line does not meet the standards required for xDSL.
Q13	nok	The subscriber line between the local exchange and your telephone connection is too long. We regret that xDSL is only possible up to a certain distance from the exchange.
Q14	nok	Invalid Request
Q15	nok	Invalid ISP ID or HTTP Request Header is missing
Q16	nok	Invalid Reply from UnityDB
Q17	nok	System Error
Q18	nok	The request data are too unexact.
Q19	nok	There is no connection between your telephone and the local exchange.
Q20	nok	A broadband connection is not possible.
Q21	nok	Internal Data Error
Q21	nok	Qualification failed, please try again using 'Qualification by Address'
Q22	nok	The requested device location is not reachable.
Q23	nok	Internal Data Error
Q23	nok	Invalid or missing input values
Q24	nok	S-TAL is not possible.
Q24	nok	TAL is not possible.
Q25	nok	The requested technology is not allowed for S-TAL.
Q26	nok	A broadband connection is not possible because there is no valid copper connection to a local exchange with broadband equipment
Q27	nok	A broadband connection is not possible because there is no valid copper connection to a local exchange with broadband equipment.
Q28	nok	BBCS is not possible because the connection would violate the spectrum management.
Q29	nok	No copper available at the moment.
Q30	nok	The associated local exchange is fully equipped with the required infrastructure but there are no free resources at the moment.
Q31	ok_stao	This phone line is suitable for xDSL, but the qualified address is not exactly the one entered. Please check the reply address. Note: A customer order due to this qualification may be delayed.
Q32	nok	The location Id is not known.

MessageID	BBCS_Result	Message_Text
Q51	nok	The binding Id is not known
Q52	nok	ReturnSpeedAtNok is only supported for the operation srvQualiByAddress, srvQualifyByStartPoint and srvQualifyByLocationId
Q98	ok	There is limited copper available. All units are connected with fiber. The provisioning of copper lines is restricted (e.g. elevator phone, etc).The inhouse copper cabling has to be arranged by the ISP. For ordering, please contact Service Desk Wholes ale.
Q99	nok	Internal Use

2.2.2 List of ULL Qualification Messages

MessageID	ULL_Result	Message Text
Q00	ok	This line is suitable for Full Access
Q01	ok_stao	This line is suitable for Full Access
Q02	nok	The desired number was not found. Please examine the input.
Q03	nok	The desired address was not found. Please try again with optional fields such as name, building or house number
Q04	nok	The desired startpoint was not found. Please examine the input.
Q05	nok	The desired line identification was not found. Please examine the input.
Q06	nok	The desired copper line was not found. Please examine the input and the rules for the City names
Q07	nok	Full Access is not possible for connection type DDI. Please try again with line identification VN or Qualification by Startpoint
Q08	nok	"Full Access is not possible for connection type ""basic number"" for DDI. Please try again with line identification VN or Qualification by Startpoint"
Q09	nok	This line is not suitable for Full Access, because of additional line equipments as (ELD, GA, DLV, GDC or AMX)
Q10	planned	The associated local exchange is not yet equipped with the required infrastructure. The upgrade is scheduled.
Q11	nok	The associated local exchange is not yet equipped with the required infrastructure.
Q12	nok	"This line is not suitable for Full Access, because the line quality does not meet the standards required for xDSL or line equipments as ""Pupin Coil"""
Q13	nok	The subscriber line between the local exchange and your telephone connection is too long. We regret that xDSL is only possible up to a certain distance from the exchange.
Q14	nok	Invalid Request
Q15	nok	Invalid ISP ID or HTTP Request Header is missing
Q16	nok	Invalid Reply from UnityDB
Q17	nok	A system error arose. Please try later.
Q18	nok	Too many startpoints found at this address. Please try again with optional fields such as house number, name or building
Q19	nok	No copper line between customer location (UP) and collocation found.
Q20	nok	Full Access is not possible, reason unknown.
Q21	nok	Full Access is not possible, because of missing data.
Q21	nok	Internal Data Error
Q21	nok	Qualification failed, please try again using 'Qualification by Address'
Q22	nok	The requested device location is not reachable.
Q23	nok	Full Access is not possible, because of invalid or missing data. Please examine the input.
Q23	nok	Invalid or missing input values
Q24	nok	Full Access Subloop is not possible.
Q24	nok	Full Access is not possible.
Q25	nok	The requested technology is not allowed for Subloop, because of Spectrum Management.
Q26	nok	Full Access is not possible because there is no valid copper connection to a local exchange with broadband equipment.
Q27	nok	Full Access is not possible because there is no valid copper connection to a local exchange with broadband equipment.
Q28	nok	TAL is not possible because the connection would violate the spectrum management.
Q29	nok	No copper available at the moment.

MessageID	ULL_Result	Message Text
Q30	nok	The associated local exchange is fully equipped with the required infrastructure but there are no free ressources at the moment.
Q31	ok_stao	This phone line is suitable for xDSL, but the qualified address is not exactly the one entered. Please check the reply address. Note: A customer order due to this qualification may be delayed.
Q32	nok	The location Id is not known.
Q51	nok	The binding Id is not known
Q97	ok	Possible spectrum violation in the future.
Q98	ok	There is limited copper available. All units are connected with fiber. The provisioning of copper lines is restricted (e.g. elevator phone, etc).The inhouse copper cabling has to be arranged by the ISP. For ordering, please contact Service Desk Wholesale.
Q99	nok	Internal Use

2.2.3 List of BBS-F Qualification Messages

Die Liste ist aus CR732-SI.

Success	ResultCode	ResultComment
false	COH	no free connections available in the central office for building a fiber cross connection
true (Bestellung möglich)	C17	Line is used by another ISP/CoPa
false	CQ1	Line is used by a cooperation partner
true (Bestellung möglich)	CQ2	Line is not ready or suitable for building a fiber cross connection (Neu: Line is already contracted)
planned	CQB	Line is not ready or suitable for building a fiber cross connection (Neu: Line is not yet ready)
true (Bestellung möglich)	CQ3	Line is already contracted
