

Overview

Swisscom FTTH rollout

- Rollout on its own
- Cooperation

Facts:

- > By the end of 2010, FTTH had been rolled out to around 230,000 households and businesses
- > Swisscom is also rolling out FTTH in areas where partnership agreements are not (yet) in place – Bellinzona, Biel, Ebikon, Erlenbach, Köniz, Küsnacht, Lugano, Sion, Solothurn, Thusis, Uster, Weinfelden, Winterthur and Zug – thereby driving fibre-optic expansion in Switzerland
- > Cooperation and cooperation agreements alone will ensure FTTH rollout to over 23% of households and businesses
- > The goal is to connect around 1 million households (a third of the population) with fibre-optic cables by the end of 2015
- > To achieve this goal, Swisscom is investing around CHF 2 billion up to 2015
