

Swisscom Ltd

Organisational Rules

Annex 2

**Organisational Regulations
(organisational chart)**

I GENERAL

1 Basics

The Organisational Regulations are an annex to the Organisational Rules of Swisscom Ltd which define the binding framework for the management of the Group, i.e. Swisscom Ltd and the shareholdings ('subsidiaries') it controls in accordance with IFRS 10.

The Board of Directors has delegated the overall management of the Group to the CEO within the framework of the legal provisions and the regulations contained in the Organisational Rules, and has provided the CEO with a supporting Group Executive Board.

2 Object of the Organisational Regulations

The Organisational Regulations outline the order of responsibilities for Swisscom Ltd as defined by the Board of Directors in the Organisational Rules, in the form of an organisational chart, and also list the topics and business to be submitted to the Board of Directors. The Board of Directors may delegate duties and powers to the standing committees of the Board of Directors.

The responsibilities of the CEO of Swisscom Ltd result from the delegation of management by the Board of Directors. In individual cases, they are explicitly mentioned.

3 Regulations and directives

The Board of Directors issues further regulations and directives based on the Organisational Rules. On the basis of the Organisational Rules, the CEO issues directives and other regulations which also specify the responsibilities of the Group Functions. In addition, the CEO issues directives in particular to the Business Divisions, the Group Functions and the subsidiaries within the scope of the CEO's authority.

4 Subsidiary categories

The Organisational Rules of Swisscom Ltd and these Organisational Regulations distinguish between three categories of subsidiaries:

- Strategic subsidiaries (category I);
- Major subsidiaries (category II);
- Other subsidiaries (category III).

The Board of Directors decides on the allocation of individual subsidiaries to category I and the CEO upon the allocation to categories II and III. As a rule, the value enhancement and growth potential, revenue, number of employees and invested capital are taken into account.

5 Procedure for proposals to the Board of Directors

5.1 Involvement of concerned entities and signature

Anyone submitting a proposal to the Board of Directors or the committees of the Board of Directors of Swisscom Ltd must include all concerned Business Divisions, Group Functions and subsidiaries and document their involvement. Proposals must be signed off by the Heads of Group Business Steering, Group Strategy & Business Development and Group Security & Corporate Affairs as well as by the General

Counsel. By signing, the signatories confirm that they have examined the proposal and agree with it from the point of view of their area. Signatures shall be obtained by the entity preparing the proposal at least five working days prior to submission of the proposal to the Board of Directors. Shorter deadlines are only permitted in justified exceptional cases and only if the area whose signature is concerned was involved from the beginning.

5.2 Contents

In the draft resolution, the decisions to be taken, the authorisations to be granted or the facts to be taken note of shall be formulated in such a way that what has been decided, together with the reasons, can be determined unambiguously at any time. The justification of the proposal shall set out in a comprehensible manner the relevant facts, the variants examined and the reasons for the proposed resolutions. The business risks and effects, in particular financial, as well as legal and political risks and effects of the proposed resolutions shall be presented in a complete and unbiased manner. For introduction purposes, a management summary consisting of the essential aspects of the initial situation and the justification must be prepared for the minutes (maximum half a page).

5.3 Proposal form and appendices¹

Proposals must be recorded on the forms available on the intranet in Word format or in PowerPoint in as much detail as necessary and as briefly as possible. For proposals with a proposed volume equal to or greater than CHF 100 million, the form in Word format must always be used. The proposal document (Word or PowerPoint), including a one-page management summary, must not exceed 12 pages, and for investment proposals above CHF 100 million must not exceed 24 pages. Appendices to the proposal may be used to explain specific points of the proposal.

5.4 Information and written communications

Information and written communications can be presented in PowerPoint or in Word format with a maximum of 12 pages. For introduction purposes, a management summary consisting of the essential aspects of the initial situation and the justification must be prepared for the minutes (maximum half a page). For written communications, the Word template that is available on the intranet can be used.

8.1	Authorisation of long-term financing (over 360 days) (bank loans, debenture loans, leases)			
	<ul style="list-style-type: none"> in excess of CHF 100 million; 		D	
	<ul style="list-style-type: none"> up to CHF 100 million. 			D
8.2	Authorisation of short-term financing (up to 360 days)			
	<ul style="list-style-type: none"> in excess of CHF 500 million; 		D	

⁸ The release of loans and credits to wholly owned subsidiaries of Swisscom is generally done as part of an explicit request in the budget process. In the following cases in particular, a separate CEO or BoD application must always be prepared which sets out the key points on which the loan authorisation is based:

- Granting of loans to wholly owned subsidiaries if a sale process or investment by a third party is sought in the planning year;
- Granting of loans to (i) subsidiaries in which minority shareholders have an interest, (ii) participations not controlled by Swisscom or (iii) third parties.
